ACTION: Notice of intent to prepare an environmental impact statement for the general management plan, Effigy Mounds National Monument.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(C), the National Park Service (NPS) is preparing an environmental impact statement for a general management plan for Effigy Mounds National Monument, Iowa. The environmental impact statement will be approved by the Director, Midwest Region.

The general management plan will prescribe the resource conditions and visitor experiences that are to be achieved and maintained in the monument over the next 15 to 20 years. The clarification of what must be achieved according to law and policy will be based on review of the monument's purpose, significance, special mandates, and the body of laws and policies directing park management. Based on determinations of desired conditions, the general management plan will outline the kinds of resource management activities, visitor activities, and development that would be appropriate in the future. A range of reasonable management alternatives will be developed through this planning process and will include, at a minimum, no-action and the preferred alternative.

Major issues to be addressed in the plan include: Cultural and natural resources of the park, visitor use of facilities and programs, staff access for resource patrols and visitor protection,

trail development, vegetation control, management of threatened and endangered species, management of the Yellow River, and land protection.

DATES: Any comments on the scope of issues to be addressed in the EIS should be received no later than December 30, 2005. Public meetings regarding the general management plan will be held during the scoping period. Specific dates, times, and locations will be made available in the local media, on the Effigy Mounds National Monument Web site (<http://www.nps.gov/efmo>), on the NPS Planning, Environment and Public Comment (PEPC) Web site (parkplanning.nps.gov/publicHome.cfm), or by contacting the Superintendent.
