4. *How often the collection is required:* Annually for most reports and at license termination for reports dealing with decommissioning.

5. *Who will be required or asked to report:* NRC licensees, including those requesting license termination.

6. *An estimate of the number of responses:* 5,019 (507 plus 4,512 recordkeepers).

7. *The estimated number of annual respondents:* 4,512.

8. *An estimate of the number of hours needed annually to complete the requirement or request:* 128,669 hours (4,909 hours for reporting [9.68 hours per response] plus 123,760 hours for recordkeeping [27.43 hours per recordkeeper]).

9. *An indication of whether section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* 10 CFR part 20 establishes standards for protection against ionizing radiation resulting from activities conducted under licenses issued by the NRC. These standards require the establishment of radiation protection programs, maintenance of radiation records, recording of radiation received by workers, reporting of incidents which could cause exposure to radiation, submittal of an annual report to NRC of the results of individual monitoring, and submittal of license termination information. These mandatory requirements are needed to protect occupationally exposed individuals from undue risks of excessive exposure to ionizing radiation and to protect the health and safety of the public.
