Federal Aviation Administration

Availability of Record of Decision for the Environmental Impact Statement, Los Angeles International Airport, Los Angeles, Los Angeles County, CA

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability for record of decision.

SUMMARY: The Federal Aviation Administration (FAA) is issuing this notice to advise the public that it has published a Record of Decision (ROD) for the Environmental Impact Statement (EIS) that evaluated proposed Master Plan improvements at Los Angeles International Airport (LAX), Los Angeles, Los Angeles County, California.

FOR FURTHER INFORMATION CONTACT: David B. Kessler, AICP, Regional Environmental Protection Specialist, AWP-611, Airports Division, Federal Aviation Administration, Western-Pacific Region, P.O. Box 92007, Los Angeles, California 90009-2007, Telephone: (310) 725-3615.

SUPPLEMENTARY INFORMATION: The Federal Aviation Administration (FAA) has completed and is publishing its Record of Decision for improvements identified in the Master Plan for Los Angeles International Airport (LAX). FAA had published its Final Environmental Impact Statement (EIS) for these Master Plan improvements and a Final General Conformity Determination on January 13, 2005. The Final EIS was prepared by the FAA pursuant to the National Environmental Policy Act of 1969 and assessed the potential impact of the Master Plan's four development alternatives (Alternatives A, B, C, and D), as well as the No Action Alternative where no improvements at the airport would be made. The FAA accepted comments on the Final EIS and these comments along with FAA responses are included in Appendix B to the ROD.

In the Final EIS, the FAA identified Alternative D as the preferred alternative in meeting the purpose and need for improvements at the airport. Under Alternative D, the two of the four

runways would be shifted to improve runway and taxiway separation. The terminal complex will be reconfigured to enhance safety and security, and accommodate the future mix of forecast aircraft. Extensive changes will be made to the existing Central Terminal Area including relocation of the existing passenger curb front to a new Ground Transportation Center, to be developed east of the airport. Alternative D also includes construction of a new Intermodal Transportation Center, consolidated rental car facility and an automated people mover system connecting the airport's main facilities. Alternative D, as approved, includes all of the aviation and airport support improvements described in the Final EIS, including, but not limited to those identified above. However, FAA has taken no action on a non-aviation related collateral development project proposed under Alternative D known as LAX Northside.
