(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: EPA requests comments on the following estimated burden hours and costs adapted from ICR number 1432.22. EPA may revise the calculations based on recently submitted class I and class II data to more accurately reflect implementation of the ODS phaseout. Recordkeeping and reporting requirements for class I ODS may have decreased over time as the phaseout of controlled ODS has matured.

The accelerated phaseout rule for ODS requires respondents to submit reports to the Agency and maintain records. The estimated total number of respondents is 253 and the frequency of responses is quarterly and/or annually. The total burden hours is estimated to be about 5,553. Operating and maintenance (O&M) costs include file storage, photocopying, and storage, and postage. They also include the general upkeep of start-up capital equipment, as well as any purchase of services such as contractor or auditing services. O&M costs are estimated at \$3,032 for the accelerated phaseout rule for ODS. The burden hours and costs are as follows: (a) Respondent's annual burden hours, \$6,876; (b) Respondent's annual labor costs, \$536,328; (c) Respondent's capital/start-up costs (ICR renewal notice), \$0; (d) Respondent's O&M costs, \$3,032; (e) Agency's annual burden hours, \$2,159; (f) Agency's annual labor costs, \$102,125.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.
