Requested Administrative Waiver of the Coastwise Trade Laws

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel LUCKY STAR.

SUMMARY: As authorized by Pub. L. 105-383 and Pub. L. 107-295, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. A request for such a waiver has been received by

MARAD. The vessel, and a brief description of the proposed service, is listed below. The complete application is given in DOT docket 2005-21428 at <http://dms.dot.gov>. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines, in accordance with Pub. L. 105-383 and MARAD's regulations at 46 CFR part 388 (68 FR 23084; April 30, 2003), that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments.

Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR part 388.

DATES: Submit comments on or before July 15, 2005.

DEPARTMENT OF TRANSPORTATION**National Highway Traffic Safety Administration**

[Docket No. NHTSA 2005-21467]

Two- and Three-Wheeled Vehicles

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Notice of draft interpretation; request for comments.

SUMMARY: This document sets forth a draft interpretation concerning whether certain two- and three-wheeled vehicles are "motor vehicles" and thus subject to the Federal motor vehicle safety standards and to other vehicle safety requirements. Physical characteristics previously relied upon by the agency are no longer reliable determinants of whether a two- or three-wheeled vehicle is a "motor vehicle." Additionally, the vehicles that were the subject of past agency interpretations are no longer representative of the two- and three-wheeled vehicles on the market today. For these reasons, and because vehicle designs continue to change and proliferate, manufacturers, importers, and import specialists from U.S. Customs and Border Protection (Customs) are requesting interpretations from NHTSA as to whether various two- and three-wheeled vehicles are "motor vehicles." This document would address the issues raised in those types of requests.

DATES: You should submit comments early enough to ensure that Docket Management receives them not later than August 15, 2005.

ADDRESSES: You may submit comments (identified by the DOT DMS Docket Number above) by any of the following methods:

I. Background

Under 49 U.S.C. Chapter 301, NHTSA has authority to establish safety standards for "motor vehicles." "Motor vehicle" is defined at 49 U.S.C. 30102(a) as:

[A] vehicle driven or drawn by mechanical power and manufactured primarily for use on the public streets, roads, and highways, but does not include a vehicle operated only on a rail line.

NHTSA has issued regulations to define various types of motor vehicles, e.g., passenger car, multipurpose passenger vehicle, truck, and motorcycle, recognizing that different types of motor vehicles present different safety problems and that the standards that are reasonable, practicable and appropriate for one type of vehicle may not be for another type (see definitions at 49 CFR 571.3). The agency has relied on these regulatory definitions to ensure that vehicles are correctly classified and made subject to the appropriate set of safety requirements.

The agency has defined the term "motorcycle," as a motor vehicle having a seat or saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground (49 CFR 571.3). Recognizing that small, low-powered motorcycles should be regulated differently than larger, higher-powered motorcycles, we established a sub-classification of "motorcycle," the "motor-driven cycle."¹ However, in order for a two- or three-wheeled vehicle to be regulated as a motorcycle or a motor-driven cycle, it must still come within the statutory definition of "motor vehicle."

The agency's interpretations of the term "motor vehicle," have centered on the word "primarily" used in the statutory definition. We have generally interpreted "primarily" to mean that a significant portion of a vehicle's use must be on public roads in order for the vehicle to be considered a "motor vehicle." Vehicles that cannot be operated on public roads, such as vehicles with tracks, are not "motor vehicles" and are not regulated by this agency. Conversely, we have held that the ability to operate on public roads is indicative that a vehicle is a motor vehicle.

The agency has long recognized that not all two- and three-wheeled, motorized vehicles with on-road capabilities are motor vehicles. In 1969,

¹ "Motor-driven cycle" is defined as "a motorcycle with a motor that produces 5-brake horsepower or less." 49 CFR 571.3.
