

addition to collecting client feedback through Quality Assurance Surveys, the U.S. Commercial Service would like to institutionalize client focus groups as another mechanism to obtain further client feedback and substantiate customer service trends we are seeing in the surveys. Client focus groups will enrich the quantitative data of surveys by providing a qualitative context for the trends that emerge. The purpose of the attached client focus group questioning routes is to collect feedback from U.S. businesses that receive export assistance services from the U.S. Commercial Service. In providing these services, the U.S. Commercial Service promotes the goods and services of small and medium-sized U.S. businesses in foreign markets.

II. Method of Collection

Recruit firms over phone using Commercial Service domestic offices (USEACs). Data collection will be conducted during face-to-face interview forums (6–8 participants per focus group) by a client focus group moderator who will transcribe via computer. All comments from participants will be anonymous

No assurances of confidentiality will be given.
