NASA and its service providers and their employees shall comply with all of the safeguards contained in paragraph (d) of this clause.

(d) To receive access to sensitive information needed to assist NASA in accomplishing management activities and administrative functions, the service provider must be operating under a contract that contains the clause at 1852.237–72, Access to Sensitive Information. This clause obligates the service provider to do the following:

(1) Comply with all specified procedures and obligations, including the Organizational Conflicts of Interest Avoidance Plan, which the contract has incorporated as a compliance document.

(2) Utilize any sensitive information coming into its possession only for the purpose of performing the services specified in its contract.

(3) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(4) Allow access to sensitive information only to those employees that need it to perform services under its contract.

(5) Preclude access and disclosure of sensitive information to persons and entities outside of the service provider’s organization.

(6) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in its contract and to safeguard it from unauthorized use and disclosure.

(7) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(8) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(e) When the service provider will have primary responsibility for operating an information technology system for NASA that contains sensitive information, the service provider’s contract shall include the clause at 1852.204–76, Security Requirements for Unclassified Information Technology Resources. The Security Requirements clause requires the service provider to implement an Information Technology Security Plan to protect information processed, stored, or transmitted from unauthorized access, alteration, disclosure, or use. Service provider personnel requiring privileged access or limited privileged access to these information technology systems are subject to screening using the standard National Agency Check (NAC) forms appropriate to the level of risk for adverse impact to NASA missions. The Contracting Officer may allow the service provider to conduct its own screening, provided the service provider employs substantially equivalent screening procedures.

(f) This clause does not affect NASA’s responsibilities under the Freedom of Information Act.

(g) The Contractor shall insert this clause, including this paragraph (g), suitably modified to reflect the relationship of the parties, in all subcontracts that may require the furnishing of sensitive information.

(Final clause)

DEPARTMENT OF TRANSPORTATION
National Highway Traffic Safety Administration

49 CFR Parts 571, 575, 577, 582
[Docket No. NHTSA–2005–21564]

Vehicle Safety Hotline; Technical Amendment

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Final rule; technical amendment.

SUMMARY: This document contains technical amendments to Part 571, Federal motor vehicle safety standards: Part 575, Consumer information; Part 577, Defect and noncompliance notification; and Part 582, Insurance cost information regulation.

Specifically, we are updating the telephone number that should be used to reach NHTSA’s Vehicle Safety Hotline, and adding our web address. This amendment updates the pertinent contact information without making any substantive changes to our regulations.

DATES: The technical amendments to parts 571, 575, and 582 are effective June 21, 2006. The technical amendment to Part 577 is effective July 21, 2005. Voluntary compliance is permitted before that time.

FOR FURTHER INFORMATION CONTACT: Mr. George Feygin, Office of Chief Counsel (Telephone: 202–366–2992) (Fax: 202–366–3820); NHTSA, 400 Seventh Street, SW., Washington, DC 20590.

SUPPLEMENTARY INFORMATION: In several regulations, NHTSA specifies that vehicle manufacturers, child seat manufacturers, or automobile dealers must provide the telephone number for our Vehicle Safety Hotline so that consumers concerned about safety recalls or potential defects could contact this agency. That telephone number has changed. This document amends the relevant sections of the CFR to correct the telephone number and to add our web address so that consumers can access the safety recall and defect information online. We are also changing the text in the Part 582 information form to reflect our current New Car Assessment Program efforts.

This technical amendment will not impose or relax any substantive requirements or burdens on manufacturers. Except for Part 577, we are providing a lead-time of one year in order to afford affected parties time to update the relevant contact information where necessary. Therefore, NHTSA finds for good cause that any notice and opportunity for comment on these correcting amendments are not necessary.

In consideration of the foregoing, this document amends the CFR by updating the contact information for the Vehicle Safety Hotline.
