SUPPLEMENTARY INFORMATION:

History

On May 5, 2005, a notice proposing to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by establishing Class E–2 airspace area at Bar Harbor, ME, was published in the Federal Register (70 FR 23810–23811). The proposed action would provide controlled airspace to accommodate Standard Instrument Approach Procedures (SIAP) to Hancock County-Bar Harbor Airport. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA on or before June 6, 2005. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace area designations for airspace extending upward from the surface of the earth are published in paragraph 6005 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published in the Order.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) provides controlled Class E airspace extending upward from the surface for aircraft conducting IFR operation into Hancock County-Bar Harbor Airport, Bar Harbor, ME.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
