If comments contain business proprietary information (BPI), they must conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission’s rules do not authorize filing of submissions with the Secretary by facsimile or electronic means, except to the extent permitted by section 201.8 of the Commission’s rules, as amended, 67 Fed. Reg. 68036 (November 8, 2002). Even where electronic filing of a document is permitted, certain documents must also be filed in paper form, as specified in II(C) of the Commission’s Handbook on Electronic Filing Procedures, 67 Fed. Reg. 68168, 68173 (November 8, 2002).

In accordance with sections 201.16(c) and 207.3 of the rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Description: The U.S. Department of Labor (DOL) provides a wide range of services to a diverse American workforce. As part of its obligation to provide equal employment opportunities, DOL is charged with ensuring that qualified individuals in groups that have historically been underrepresented in various employments are included in applicant pools for Departmental positions. See 5 U.S.C. 7201(c); 29 U.S.C. 791; 5 CFR 720.204. To achieve this goal, DOL employment offices have targeted recruitment outreach to a variety of sources. Included in these sources are educational institutions which historically serve a high concentration of minorities, women, and persons with disabilities. Outreach efforts also extend to professional organizations, newspapers and magazines, as well as participation in career fairs and conferences, many of which reach high concentrations of historically underrepresented groups.

Without the information from this collection, DOL does not have the ability to evaluate the effectiveness of any of these targeted recruiting strategies because collection of racial and ethnic information only would occur at the point of hiring. DOL needs to collect data on the pools of applicants which result from the various targeted recruiting strategies listed above. With the information from this collection, DOL can adjust and redirect its targeted recruitment to ensure that the applicant pools contain candidates from historically underrepresented groups.

Departmental Clearance Officer.
