**BILLING CODE 6560-50-P**

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Parts 60, 61, and 63

[FRL-7927-4]

#### **Delegation of Authority to the States of Iowa and Kansas for New Source Performance Standards (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP); and Maximum Achievable Control Technology (MACT) Standards**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of delegation of authority.

**SUMMARY:** The states of Iowa and Kansas have submitted updated regulations for delegation of EPA authority for implementation and enforcement of NSPS, NESHAP, and MACT. The submissions cover new EPA standards and, in some instances, revisions to standards previously delegated. EPA's review of the pertinent regulations shows that they contain adequate and effective procedures for the implementation and enforcement of these Federal standards. This action informs the public of delegations to the above-mentioned agencies.

**DATES:** This document is effective on June 24, 2005. The dates of delegation can be found in the **SUPPLEMENTARY INFORMATION** section of this document.

**ADDRESSES:** Copies of documents relative to this action are available for public inspection during normal business hours at the Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th

Street, Kansas City, Kansas 66101. The interested persons wanting to examine these documents should make an appointment with the office at least 24 hours in advance.

Effective immediately, all notifications, applications, reports, and other correspondence required pursuant to the newly delegated standards and revisions identified in this document must be submitted with respect to sources located in the jurisdictions identified in this document, to the following addresses:

Iowa Department of Natural Resources, Air Quality Bureau, 7900 Hickman Road, Urbandale, Iowa 50322.

Kansas Department of Health and Environment, Bureau of Air and Radiation, 1000 SW., Jackson, Suite 310, Topeka, Kansas 66612.

Duplicates of required documents must also continue to be submitted to the EPA Regional Office at the above address.

**FOR FURTHER INFORMATION CONTACT:** Leland Daniels at (913) 551-7651, or by e-mail at [daniel.s.leland@epa.gov](mailto:daniel.s.leland@epa.gov).

**SUPPLEMENTARY INFORMATION:** The supplementary information is organized in the following order:

What does this action do?  
What is the authority for delegation?  
What does delegation accomplish?  
What has been delegated?  
What has not been delegated?

#### **List of Delegation Tables**

Table I—NSPS, 40 CFR part 60  
Table II—NESHAP, 40 CFR part 61  
Table III—NESHAP, 40 CFR part 63

#### **What does this action do?**

The EPA is providing notice of an update to its delegable authority for implementation and enforcement of the Federal standards shown in the tables below to the states of Iowa and Kansas. This rule updates the delegation tables previously published at 68 FR 69029

(December 11, 2003). The EPA has established procedures by which these agencies are automatically delegated the authority to implement the standards when they adopt regulations which are identical to the Federal standards. We then periodically provide notice of the new and revised standards for which delegation has been given.

#### **What is the authority for delegation?**

1. Section 111(c)(1) of the Clean Air Act (CAA) authorizes EPA to delegate authority to any state agency which submits adequate regulatory procedures for implementation and enforcement of the NSPS program. The NSPS are codified at 40 CFR part 60.

2. Section 112(l) of the CAA and 40 CFR part 63, subpart E, authorizes the EPA to delegate authority to any state or local agency which submits adequate regulatory procedures for implementation and enforcement of emission standards for hazardous air pollutants. The hazardous air pollutant standards are codified at 40 CFR parts 61 and 63, respectively.

#### **What does delegation accomplish?**

Delegation confers primary responsibility for implementation and enforcement of the listed standards to the respective state and local air agencies. However, EPA also retains the concurrent authority to enforce the standards.

#### **What has been delegated?**

Tables I, II, and III below list the delegated standards. Each item listed in the Subpart column has two relevant dates listed in each column for each state. The first date in each block is the reference date to the CFR contained in the state rule. In general, the state or local agency has adopted the applicable standard through the date as noted in the table. The second date is the most

recent effective date of the state agency rule for which the EPA has granted the delegation. This notice specifically addresses revisions to the columns for Iowa and Kansas.

#### What has not been delegated?

1. The EPA regulations effective after the first date specified in each block have not been delegated, and authority for implementation of these regulations is retained solely by EPA.

2. In some cases, the standards themselves specify that specific

provisions cannot be delegated. You should review the applicable standard for this information.

3. In some cases, the agency rules do not adopt the Federal standard in its entirety. Each agency rule (available from the respective agency) should be consulted for specific information.

4. In some cases, existing delegation agreements between the EPA and the agencies limit the scope of the delegated standards. Copies of delegation agreements are available from the state agencies, or from this office.

5. With respect to 40 CFR part 63, subpart A, General Provisions (see Table III), the EPA has determined that sections 63.6(g), 63.6(h)(9), 63.7(e)(2)(ii) and (f), 63.8(f), and 63.10(f) cannot be delegated. Additional information is contained in an EPA memorandum titled "Delegation of 40 CFR Part 63 General Provisions Authorities to State and Local Air Pollution Control Agencies" from John Seitz, Director, Office of Air Quality Planning and Standards, dated July 10, 1998.

### Summary of This Action

All sources subject to the requirements of 40 CFR parts 60, 61, and 63 are also subject to the equivalent requirements of the above-mentioned state or local agencies.

This notice informs the public of delegations to the above-mentioned agencies of the above-referenced Federal regulations.

**Authority:** This notice is issued under the authority of sections 101, 110, 112, and 301 of the CAA, as amended (42 U.S.C. 7401, 7410, 7412, and 7601).

Dated: June 15, 2005.

**Martha R. Cuppy,**

*Acting Regional Administrator, Region 7.*

**RIN 2060-AL91**

#### National Emission Standards for Hazardous Air Pollutants: Cellulose Products Manufacturing

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule; correction.

**SUMMARY:** We are taking final action to amend the national emission standards for hazardous air pollutants (NESHAP) for Cellulose Products Manufacturing. This amendment will correct the date in the definition of a process change that was included in the final rule. Without this amendment, the earliest date on

which changes could qualify as process changes for compliance purposes would be January 1992. With this action, process changes implemented in January 1991 and later can qualify as process changes for compliance purposes.

This action corrects an error by the Agency and makes the regulatory language consistent with the technical background work that was performed during the development of the standards. Thus, it is proper to issue this final rule correction without notice and comment.

**DATES: Effective Date:** The correction is effective on June 24, 2005.

**FOR FURTHER INFORMATION CONTACT:** Mr. Bill Schrock, Organic Chemicals Group, Emission Standards Division (C504-04), Office of Air Quality Planning and Standards, EPA, Research Triangle Park, North Carolina 27711, telephone number (919) 541-5032, facsimile number (919) 541-3470, electronic mail (e-mail) address *schrock.bill@epa.gov*.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The EPA, under section 112 of the CAA, promulgated the NESHAP for cellulose products manufacturing on June 11, 2002 (67 FR 40044). The final rule, codified at 40 CFR part 63, subpart UUUU, includes definitions of a process change for the viscose industry, as well as the cellulose ether industry. Following promulgation of the rule, Teepak, Inc., requested that we issue specific amendments to the final rule changing the date that process changes that reduced emissions could be utilized for the purpose of demonstrating compliance. Their request was based on the calculations for the maximum

achievable control technology (MACT) floor which included these process changes.

### II. Summary of Amendment

This document corrects the definition for “viscose process change” under 40 CFR 63.5610 which states that the process change must occur “no earlier than January 1992.” In the CAA section 114 information collection request sent to the industry in 1998, EPA requested information on source reduction measures implemented since 1987. In their response, Teepak provided information on three projects that reduced emissions per unit length of food casing produced, and one of these projects was implemented in January 1991. According to Teepak, EPA indicated it would credit Teepak for emission reductions from that project. Noting that the Teepak level of control was chosen as the MACT floor, Teepak has recommended that the definition for “viscose process change” be amended to “no earlier than January 1991.”

The definition for “viscose process change” as promulgated effectively excludes the 1991 process change at Teepak that was accounted for in our MACT floor calculations. Since we established the MACT floor for cellulose food casing operations based on the level of emission control achieved at Teepak, we are making the suggested revision to the definition for “viscose process change.” For consistency, we are revising the definition for “cellulose ether process change” similarly.

### III. Statutory and Executive Order Reviews

Under Executive Order 12866, Regulatory Planning and Review (58 FR
