Title: Milestones Plans for the Bleached Papergrade Kraft and Soda Subcategory of the Pulp, Paper and Paperboard Manufacturing Category (Renewal).

Abstract: The information to be collected is a Milestones Plan, which is required as part of a new Voluntary

Advanced Technology Incentives Program (VATIP) established under the Pulp, Paper, and Paperboard Effluent Limitations Guidelines and Standards (40 CFR part 430) portion of the Cluster Rule promulgated on April 15, 1998. Only direct discharging bleached papergrade kraft and soda mills are eligible to participate in the VATIP. Furthermore, the Milestones Plan is required only of those mills that voluntarily choose to enroll in the incentives program. The VATIP (40 CFR 430.24(b)) is intended to encourage existing and new direct discharging mills to move beyond today's baseline BAT and NSPS technologies.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are those existing, direct discharging mills with operations that chemically pulp wood fiber using kraft or soda methods to produce bleached papergrade pulp, paperboard, coarse paper, tissue paper, fine paper, and/or paperboard and that choose to participate in the Voluntary Advanced Technology Incentives Program established under 40 CFR 430.24(b).

Estimated Number of Respondents: 29.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 1,418.

Estimated Total Annual Cost: \$150,000, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is no change in the total estimated burden hours currently identified in the OMB Inventory of Approved ICR Burdens.

Gustavo and Guadalupe Martinez individually, d/b/a Menchaca Transport Express; and Biddle Sawyer Corporation

The proposed Agreement contains a settlement between U.S. EPA and Gustavo and Guadalupe Martinez individually and d/b/a Menchaca Transport Express; and Biddle Sawyer Corporation for the payment of a portion of EPA's unreimbursed costs incurred at the 47th and Dan Ryan Superfund Site. The Agreement requires the Settling Parties to pay a total of \$90,000 to the EPA Hazardous Substance Superfund. The Agreement also includes a covenant not to sue the Settling Parties pursuant to Section 107(a) of CERCLA, 42 U.S.C. 9607(a).

For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating

to the Agreement. The Agency will consider all comments received and may modify or withdraw its consent to the Agreement if comments received disclose facts or considerations which indicate that the Agreement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public inspection at the following location: Records Center, U.S. EPA, Region 5, 7th Floor, 77 W. The City of Chicago, Illinois Department of Transportation, and U.S. EPA incurred response costs in containing and addressing the impact of the spill. U.S. EPA's emergency response contractors decontaminated the impacted portion of the highway with pressure washers, and sent the rinse water into a bulk liquids trailer for offsite disposal. Impacted soil from along the berm west of the highway, burned debris and other solid waste associated with the incident was drummed up and removed. U.S. EPA response personnel also performed air monitoring and conducted other sampling activities; U.S. EPA also incurred response costs relating to its responsible party search, negotiations and other enforcement costs.

The Settling Parties Gustavo and Guadalupe Martinez individually, and d/b/a Menchaca Transport Express (now a defunct entity); and Biddle Sawyer Corporation, the shipper and owner of the hazardous substances at the time of the incident, are jointly and severally liable for the proposed payment under the terms of the Agreement. Miken Cartage, Inc. a transporter which had contracted with Biddle Sawyer Corporation and the driver of the truck owned by Menchaca, is recalcitrant and is not participating in the Agreement. Subject to U.S. EPA's reservations of rights, any response costs which would not be recovered under the terms of the Agreement would be forgiven as against the Settling Parties.

ADDRESSES: The proposed settlement is available for public inspection at the
