NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records

when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before August 15, 2005. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means (**Note** the new address for requesting schedules using e-mail):

Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001.
E-mail: requestschedule@nara.gov.
FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Paul M. Wester, Jr., Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: (301) 837-3120. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also

includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

[Docket No. 40-6659]

Establishment of the U.S. Department of Energy as the Long-Term Custodian of the Shirley Basin South Uranium Mill Tailings Site in Shirley Basin, Wyoming and Termination of the Petrotomics Company Source Materials License for the Shirley Basin South Site

AGENCY: Nuclear Regulatory
Commission.

ACTION: Notice of establishment of the U.S. Department of Energy as the long-term custodian of the Shirley Basin South uranium mill tailings site in Shirley Basin, Wyoming under the general license provisions of 10 CFR part 40.28, and termination of the Petrotomics Company specific Source Materials License SUA-551 for the Shirley Basin South site.

FOR FURTHER INFORMATION CONTACT: Rick Weller, Project Manager, Fuel Cycle Facilities Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone: (301) 415-7287; fax number: (301) 415-5955; e-mail: rmw2@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

On March 25, 2005, the Petrotomics Company (Petrotomics) transferred ownership of the Shirley Basin South uranium mill tailings site in Shirley Basin, Wyoming to the U.S. Department of Energy (DOE), as required by 10 CFR part 40, appendix A, criterion 11, prior to termination of Petrotomics' specific license. Subsequently, by letter dated May 12, 2005, the DOE submitted the final Long-Term Surveillance Plan (LTSP) for the Shirley Basin South site for review by the U.S. Nuclear Regulatory Commission (NRC). A correction to one page of the LTSP was provided to the NRC in a DOE letter dated June 1, 2005. Based on the review of the LTSP, the NRC has determined that the LTSP satisfies the requirements in 10 CFR part 40, appendix A, criterion 12, and § 40.28 for the long-term surveillance of a tailings disposal site. Accordingly, notice is hereby given that

the NRC has accepted the LTSP for the Shirley Basin South site. This acceptance establishes the DOE as the long-term custodian and caretaker of the Shirley Basin South site under the general license specified in 10 CFR 40.28. In a concurrent action, the NRC has terminated Petrotomics' specific Source Materials License SUA-551 for the Shirley Basin South site. These actions complete all requirements for closure of the Shirley Basin South site under the Uranium Mill Tailings Radiation Control Act of 1978, as amended. These actions do not require an environmental assessment as they are categorically excluded under 10 CFR 51.22(c)(11).

II. Further Information

The NRC has prepared correspondence which documents the actions that establish the DOE as the long-term custodian of the Shirley Basin South site under the general license specified in 10 CFR 40.28 and terminate Petrotomics' specific Source Materials License SUA-551 for the Shirley Basin South site. In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," copies of this correspondence, as well as the Shirley Basin South LTSP submitted by DOE letters dated May 12 and June 1, 2005, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession numbers for the documents related to this notice are listed below. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.
