

the **Federal Register** on May 13, 2005 (70 FR 25621). The April 29, 2005, application proposed amendments to PBNP, Units 1 and 2, Facility Operating License Nos. DPR-24 and DPR-27, respectively. However, by letter dated May 13, 2005, the licensee withdrew the proposed amendment for PBNP, Unit 1, Facility Operating License No. DPR-24.

For further details with respect to this action, see the application for amendment dated April 29, 2005, and the licensee's letter dated May 13, 2005, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or (301) 415-4737 or by e-mail to pdrr@nrc.gov.

Dated at Rockville, Maryland, this 24th day of June 2005.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-301]

Nuclear Management Company, LLC, Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No. 225 to Facility Operating License No. DPR-27 issued to Nuclear Management Company, LLC (the licensee), which modified the Point Beach Nuclear Plant (PBNP), Unit 2, Final Safety Analysis Report to include a reactor vessel head drop accident for operation of the PBNP, Unit 2, located in Two Rivers, WI. The amendment is effective as of the date of issuance.

The amendment authorized changes to the design basis and Final Safety

Analysis Report (FSAR) related to a postulated reactor vessel head drop accident in accordance with 10 CFR 50.71(e).

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing in connection with this action was published in the **Federal Register** on May 13, 2005 (70 FR 25621).

For further details with respect to this action see (1) the application for amendment dated April 29, 2005, as supplemented by letters dated May 13, May 19, June 1, June 4, June 9, June 20, and June 23, 2005, (2) Amendment No. 225 to License No. DPR-301, and (3) the Commission's related Safety Evaluation dated June 24, 2005. The Commission made a final no significant hazards consideration determination in its Safety Evaluation dated June 24, 2005. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/NRC/ADAMS/index.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC Public Document Room Reference staff by telephone at 1-800-397-4209, 301-415-4737 or by e-mail to pdrr@nrc.gov.

Dated at Rockville, Maryland, this 24th day of June 2005.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-3103]

Louisiana Energy Service's Proposed National Enrichment Facility; Notice of Availability of Final Environmental Impact Statement

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability of Final Environmental Impact Statement.

FOR FURTHER INFORMATION CONTACT:

James Park, Project Manager, Environmental and Performance Assessment Directorate, Division of Waste Management and Environmental Protection, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-5835; e-mail: jrp@nrc.gov.

SUMMARY: Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) is issuing a Final Environmental Impact Statement (FEIS) on the proposed construction, operation, and decommissioning of the National Enrichment Facility (NEF), a gaseous centrifuge uranium enrichment facility, near Eunice, New Mexico. The FEIS is being issued as part of the NRC's decision-making process on whether to authorize Louisiana Energy Services (LES) to construct, operate, and decommission the proposed NEF.

The proposed NEF would produce enriched uranium-235 (²³⁵U) up to 5 weight percent by the gas centrifuge process with a nominal production of 3 million separative work units per year. The enriched uranium would be used in commercial nuclear power plants. The FEIS discusses the purpose and need for the proposed NEF, and reasonable alternatives to the proposed action, including the no-action alternative. The FEIS also discusses the environment potentially affected by the proposed action, presents and compares potential environmental impacts resulting from the proposed action and its alternatives, and identifies the mitigation measures proposed by LES to eliminate or lessen the potential environmental impacts.

Based on the evaluation in the FEIS, the NRC environmental review staff has concluded that the proposed action will generally have small to moderate effects on the public and the existing environment. This FEIS reflects the final analysis of environmental impacts of LES's proposal and its alternatives, including the consideration of public comments received by the NRC.
