Assistant Commissioner for Policy.

BILLING CODE 4160-01-S

Control No. 225-05-6002

MEMORANDUM OF UNDERSTANDING

BETWEEN

THE STATE OF SOUTH CAROLINA

SC DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
BUREAU OF RADIOLOGICAL HEALTH
AND

U.S. FOOD AND DRUG ADMINISTRATION
CENTER FOR DEVICES AND RADIOLOGICAL HEALTH
OFFICE OF COMMUNICATION, EDUCATION, AND RADIATION PROGRAMS

I. **PURPOSE:**

The purpose of this Memorandum of Understanding (MOU) is to authorize the State of South Carolina, through the South Carolina Department of Health and Environmental Control (DHEC), to conduct a State as certifiers (SAC) program in South Carolina under the Mammography Quality Standards Act (MQSA) (42U.S.C.263b) as amended by the Mammography Quality Standards Reauthorization Act of 1998 (MQSRA). Through this MOU, the United States Food and Drug Administration (FDA) authorizes DHEC to enforce MQSA certification standards as approved by the FDA, to issue certificates to mammography facilities, to perform inspection of mammography facilities, and to take enforcement action against facilities that violate MQSA to ensure safe, reliable, and accurate mammography in South Carolina.

II. **BACKGROUND:**

The MQSA (Pub. L. 102-539) was enacted on October 27, 1992, to establish national quality standards for mammography. Subsection 354(q) of the MQSA gives the Secretary of Health and Human Services (Secretary) the power to authorize State programs to carry out certain MQSA certification program requirements. The Secretary has delegated his authority under subsection 354(q) to FDA. The State of South Carolina requested FDA's approval to serve as a certifying state agency on October 23, 2001. FDA has approved the State's request and authorizes, through this MOU, the State of South Carolina to serve in its capacity as a certifying State.

III. **SUBSTANCE OF AGREEMENT:**

1. FDA hereby authorizes the State of South Carolina, through the DHEC, to carry out the certification requirements of subsections 354(b), (c), (d), (g)(1), (h), (i), and (j) of the MQSA (including the requirements under regulations

promulgated pursuant to such subsections). This authorization applies to facilities within the DHEC's jurisdiction.

2. FDA shall carry out subsections 354(e) and (f), may take action under subsections 354(h), (i), and (j), and shall conduct oversight functions under subsections 354(g)(2) and (g)(3) of the MQSA.
3. The State of South Carolina shall, in addition, comply with the standards for certification agencies at 21CFR 900.22 and 900.25(b) including but not limited to, the requirements for establishing processes for the following activities:
 - certification and inspection of mammography facilities by MQSA-qualified inspectors;
 - appropriate criteria and processes for the suspension and revocation of certificates;
 - prompt investigation of and appropriate enforcement action for facilities performing mammography without certificates, as well as other violations of MQSA;
 - appeals by facilities regarding inspectional findings, enforcement actions, and adverse certification decisions or adverse accreditation decisions after exhausting appeals to their accreditation body;
 - additional mammography review of facilities when the State believes that mammography quality at a facility has been compromised and may present a serious risk to human health;
 - patient and physician notification by the facility when additional mammography review shows that the quality of mammography performed was so inconsistent with established quality standards as to present a significant risk to human health;
 - timely and accurate electronic transmission of inspection, certification, and compliance data in a format and timeframe determined by FDA;
 - authorization by FDA of changes the State proposes to make to any standard that FDA previously has accepted under 21 CFR 900.21.
4. By October 1st, the beginning of FDA's fiscal year, the State of South Carolina shall provide to FDA its plan for inspecting all of the facilities under its jurisdiction during the coming year. At the beginning of each quarter, the State shall provide an update to FDA describing any changes in its annual plan that occurred in the last quarter or are planned for the coming quarter. (Quarters will be calculated on a fiscal rather than calendar year basis, beginning in October and continuing through September of the following year).
5. The State of South Carolina will electronically transmit the dates of inspections and the results of all MQSA facility inspections conducted by the State within 5 business days after conducting the inspection by uploading

- these data to the MQSA Mammography Program Reporting and Information System (MPRIS) facility inspection data application (FISS).
6. The FDA will bill and charge each inspected mammography facility a fee, in accordance with 42 USC 263b(r)(1), of \$509 to cover the FDA's cost for support of the inspections. This fee may be subject to change by FDA. The types of services that will be provided by the FDA are as follows:
 - Training and qualifying inspectors.
 - Billing facilities for the FDA portion of the fees due for annual inspections.
 - Collecting the FDA portion of the facility payments.
 - Developing instrument calibration procedures and calibrating instruments used in the inspections.
 - Supplying, repairing, and replacing inspection equipment.
 - Designing, programming, and maintaining inspection data systems.
 - Administering attributable support to facility inspections.
 7. Facilities that qualify as governmental entities (GE) will not be subject to the payment of FDA inspection fees.
 8. By the end of each quarter, the State of South Carolina shall electronically update and maintain facility noncompliance information via the MPRIS facility compliance tracking data application (FaNTMS) to reflect the status and resolution of inspectional findings. Quarters will begin in October and continue through September of the following year.
 9. The State of South Carolina will, in accordance with 21 CFR 900.23, provide all information as specified by FDA as part of FDA's oversight responsibilities, including keeping FDA's SAC liaison informed of compliance actions as they occur and through resolution (e.g., AMR, PPN, Injunctions, Cease and Desist Order, Suspension, or Revocation).
 10. The State of South Carolina will timely provide FDA with updates concerning revisions made to the State's policies and procedures for carrying out its MQSA certification, inspection, and enforcement responsibilities.
 11. In the event FDA determines, through its oversight activities under 21 CFR 900.23, or through other means, that the State of South Carolina is no longer in substantial compliance with its certification program responsibilities, FDA may take action in accordance with 21 CFR 900.24.
 12. FDA will provide to the State of South Carolina, under 21 CFR 900.25(a), the opportunity to appeal final actions taken by FDA regarding its approval or withdrawal of approval of the certification body.

13. FDA will provide the State of South Carolina with access to the FDA MQSA database (MPRIS).
