[Docket No. EL05-133-000]

**City and County of San Francisco Complainant v. Pacific Gas and Electric Company, Respondent, Notice of Complaint and Motion for Issuance of Show Cause Proceeding**

June 30, 2005

Take notice that on June 29, 2005, the City and County of San Francisco (City) tendered for filing a Complaint and Motion for Issuance of an Order to Show Cause against Pacific Gas and Electric Company (PG&E) pursuant to sections 205, 206, 306, 308, and 309 of the Federal Power Act, 16 U.S.C. 824d, 824e, 825e, 825g, and 825h and Rules 206 and 209 of the Rules of Practice and Procedure of the Commission (18 CFR 385.206, 209).

In its Complaint, City alleges that in June of 2004, PG&E improperly demanded that City pay PG&E \$27.7 million for services rendered from July of 2000 through 2003 under a 1987 Interconnection Agreement, PG&E Revised Rate Schedule FERC No. 114 (Agreement) between City and PG&E. City states that PG&E demanded this amount in addition to the \$47.2 million that City had already paid PG&E for service covering the same time period. City further states that the Agreement makes no provision for such a retroactive bill. City states that the practices by which PG&E seeks to recalculate its charges to City clearly do not conform to the Agreement. City further alleges that PG&E has improperly attempted to invoke the dispute resolution and arbitration provisions of the Agreement.

City certifies that copies of the complaint were served on PG&E as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protest must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. PF05-15-000]

#### **Sonora Pipeline, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Burgos Hub Export/Import Project, and Notice of Request for Comments on Environmental Issues; Site Visit**

June 29, 2005.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of Sonora Pipeline, LLC's (Sonora) planned Burgos Hub Export/Import Project located in Hidalgo County, Texas. This notice announces the opening of the scoping process we will use to gather input from the public and interested agencies on the projects. Your input will help the Commission staff determine which issues need to be evaluated in the EA. Please note that the scoping period will close on August 1, 2005.

This notice is being sent to affected landowners; federal, state, and local government representatives and agencies; environmental and public interest groups; Native American tribes; other interested parties in this proceeding; and local libraries and newspapers. We encourage government representatives to notify their constituents of this planned project and encourage them to comment on their areas of concern.

#### **Summary of the Proposed Project**

The project would consist of construction of 31 miles of 30-inch-diameter pipeline in two segments. The first segment would be 8 miles of pipeline that would commence at Donna Station and extend southward to the international boundary in the Rio Grande River near the city of Progresso. The second segment would be 23 miles of pipeline and would commence at the Gilmore Plant and extend southward to

the international boundary in the Rio Grande River near the city of Mission.

Sonora indicates that these facilities are needed to help alleviate the growing demand for natural gas in the Burgos Hub area of Mexico and in the longer term, will help alleviate the demand for natural gas in the United States by providing a means for liquefied natural gas (LNG) from offshore Mexico to be imported.

Sonora anticipates filing an application with the FERC on or before the end of the summer. If approved, Sonora would seek approval to begin construction in March 2006.

Location maps depicting Sonora's proposed facilities are provided in Appendix 1.<sup>1</sup>

#### **Currently Identified Environmental Issues**

At this time no formal application has been filed with the FERC. For this project, the FERC staff has initiated its NEPA review prior to receiving the application. The purpose of the Commission's Pre-Filing Process is to involve interested stakeholders early in project planning and to identify and resolve issues before an application is filed with the FERC.

#### **The EA Process**

The FERC will use the EA to consider the environmental impact that could result if it issues Sonora a Certificate of Public Convenience and Necessity.

This notice formally announces our preparation of the EA and the beginning of the process referred to as "scoping." We<sup>2</sup> are soliciting input from the public and interested agencies to help us focus the analysis in the EA on the potentially significant environmental issues related to the proposed action.

Our independent analysis of the issues will be included in an EA that will be prepared for the project. Our evaluation will also include possible alternatives to the proposed project or portions of the project, and we will make recommendations on how to lessen or avoid impacts on the various resource areas of concern.

The EA will be mailed to Federal, State, and local government agencies; elected officials; environmental and

public interest groups; Native American tribes; affected landowners; other interested parties; local libraries and newspapers; and the FERC's official service list for this proceeding. A 30-day comment period will be allotted for review of the EA. We will consider all comments submitted on the EA in any Commission Order that is issued for the project.

We are currently involved in discussions with other jurisdictional agencies to identify their issues and concerns. These agencies include the U.S. Army Corps of Engineers, U.S. Fish and Wildlife Service, Texas Parks and Wildlife, and the Texas Historical Commission. By this notice, we are asking these and other federal, state, and local agencies with jurisdiction and/or special expertise with respect to environmental issues to formally cooperate with us in the preparation of the EA. Agencies that would like to request cooperating status should follow the instructions for filing comments provided below.

#### **Public Participation**

You can make a difference by providing us with your specific comments or concerns about the proposals. Your comments should focus on the potential environmental effects, reasonable alternatives and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. To ensure that your comments are timely and properly recorded, please mail your comments so that they will be received in Washington, DC on or before August 1, 2005 and carefully follow these instructions:

- Send an original and two copies of your letter to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A., Washington, DC 20426;
- Label one copy of the comments for the attention of Gas Branch 1, DG2E; and
- Reference Docket No. PF05-15-000 on the original and both copies.

Please note that the Commission encourages electronic filing of comments. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Internet Web site at <http://www.ferc.gov> under the "eFiling" link and the link to the User's Guide. Prepare your submission in the same manner as you would if filing on paper and save it to a file on your hard drive. Before you can file comments you will need to create an account by clicking on "Login to File" and then "New User Account." You will be asked to select the type of filing you are

<sup>1</sup> The appendices referenced in this notice are not being printed in the **Federal Register**. Copies are available on the Commission's Web site (excluding maps) at the "eLibrary" link or from the Commission's Public Reference Room or call (202) 502-8371. For instructions on connecting to eLibrary refer to the end of this notice. Copies of the appendices were sent to all those receiving this notice in the mail.

<sup>2</sup> "We" "us," and "our" refer to the environmental staff of the Office of Energy Projects (OEP).
