of public comment.

SUMMARY: The NRC has recently
submitted to OMB for review the
following proposal for the collection of
information under the provisions of the
Paperwork Reduction Act of 1995 (44
U.S.C. Chapter 35). The NRC hereby
informs potential respondents that an
agency may not conduct or sponsor, and
that a person is not required to respond
to, a collection of information unless it
displays a current valid OMB control
number.

1. *Type of submission, new, revision,
or extension:* Revision.

collection:* 10 CFR part 32—Specific
Domestic Licenses to Manufacture or

“Transfers of Industrial Devices
Report.”

4. *How often the collection is
required:* There is a one-time submittal
of information to receive a license.
Renewal applications are submitted
every 10 years. In addition,
recordkeeping must be performed on an
on-going basis, and reports of transfer of
byproduct material must be reported
every 5 years, and in a few cases, every
year.

5. *Who will be required or asked to
report:* All specific licensees who
manufacture or initially transfer items
containing byproduct material for sale
or distribution to general licensees or
persons exempt from licensing.

99,118 hours for Agreement State

9. *An indication of whether Section
3507(d), Pub. L. 104-13 applies:* Not
applicable.

10. Abstract: 10 CFR part 32
establishes requirements for specific
licenses for the introduction of
byproduct material into products or
materials and transfer of the products or
materials to general licensees or persons
exempt from licensing. It also prescribes
requirements governing holders of the
specific licenses. Some of the
requirements are for information which
must be submitted in an application for
a specific license, records which must
be kept, reports which must be
submitted, and information which must
be forwarded to general licensees and
persons exempt from licensing. In
addition, 10 CFR part 32 prescribes
requirements for the issuance of
certificates of registration (concerning
radiation safety information about a
product) to manufacturers or initial
transferors of sealed sources and
devices. Submission or retention of the
information is mandatory for persons
subject to the 10 CFR part 32
requirements. The information is used
by NRC to make licensing and other
regulatory determinations concerning
the use of radioactive byproduct
material in products and devices.
