

It also contained small segments on alcohol use and on speeding. The survey has been repeated four times since then, with the survey instrument updated prior to each survey administration to incorporate emergent issues and items of increased interest. The most recent survey was fielded during the first quarter of calendar year 2003.

The proposed survey is the sixth Motor Vehicle Occupant Safety Survey. The survey would collect data on topics included in the preceding surveys and would monitor changes over time in the use of occupant protection devices and in attitudes related to vehicle occupant safety. It is important that NHTSA monitor these changes so that the Agency can determine the effects of its efforts to promote the use of safety devices and to identify areas where its efforts should be targeted and where new strategies may be needed. As in earlier years, NHTSA proposes to make a small number of revisions to the survey instrument to address new information needs. If approved, the proposed survey would assist NHTSA in addressing the problem of motor vehicle occupant safety and in formulating programs and recommendations to Congress. The results of the proposed survey would be used to: (a) Identify areas to target current programs and activities to achieve the greatest benefit; (b) develop new programs and initiatives aimed at increasing the use of occupant safety devices by the general public; and (c) provide informational support to States and localities in their traffic safety efforts. The findings would also be used directly by State and local highway safety and law enforcement agencies in the development and implementation of effective countermeasures to prevent injuries and fatalities to vehicle occupants.

*Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information)*—Under this proposed effort, the Contractor would conduct cognitive testing, a survey pretest, and final survey administration. The cognitive testing would only be performed for Questionnaire #2 as this instrument has changed significantly since previous cognitive testing whereas Questionnaire #1 has not significantly changed. A total of nine in-person one-on-one cognitive interviews averaging 40 minutes in length would be conducted with parents of children under the age of 9 who use a child restraint with their child at least on occasion. These interviews would identify any problems with the most

recently developed questions that need to be addressed. A total of 30 telephone pretest interviews (15 per questionnaire) averaging 20 minutes in length would be administered to test the computer programming of the questionnaires, and to determine if any last adjustments to the questionnaires are needed. Following any revisions carried out as a result of the pretest, the Contractor would conduct telephone interviews averaging approximately 20 minutes in length with 12,000 randomly selected members of the general public age 16 and older in telephone households. The respondent sample would be selected from all 50 States plus the District of Columbia. Interviews would be conducted with persons at residential phone numbers selected through random digit dialing. Businesses are ineligible for the sample and would not be interviewed. No more than one respondent would be selected per household. Each member of the sample would complete one interview.

*Estimate of the Total Annual Reporting and Recordkeeping Burden Resulting From the Collection of Information*—NHTSA estimates that the cognitive interviews would require an average of 40 minutes apiece or a total of 6 hours for the 9 respondents. The pretest interviews would require an average of 20 minutes apiece or a total of 10 hours for the 30 respondents. Each respondent in the final survey sample would require an average of 20 minutes to complete the telephone interview or a total of 4,000 hours for the 12,000 respondents. Thus, the number of estimated reporting burden hours a year on the general public would be 4016 for the proposed survey (6 for the cognitive interviewing, 10 for the pretest, and 4000 for the final survey administration). This represents an increase of 6 hours over the burden associated with the 2003 Motor Vehicle Occupant Safety Survey. The respondents would not incur any reporting cost from the information collection. The respondents also would not incur any recordkeeping burden or recordkeeping cost from the information collection.

**Ohi-Rail Corporation—Lease and Operation Exemption—Wheeling & Lake Railway Company**

Ohi-Rail Corporation (Ohi-Rail), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to lease and operate, pursuant to an agreement entered into with Wheeling & Lake Erie Railway Company (W&LE), W&LE's line of railroad known as the Cleveland Subdivision, Carrollton Branch, from milepost 0.0 in Canton, OH, to milepost 27.71 in Carrollton, OH, and from milepost 0.0 to milepost 3.00 on the Minerva Branch. The lease will also provide overhead interchange rights from milepost 0.44 in the Canton Yard to milepost 1.7 at Furnace Junction, with no servicing of customers between those mileposts. The total distance of rail lines to be leased and operated by Ohi-Rail is 30.71 miles.<sup>1</sup>

Based on projected revenues for the Cleveland Subdivision, Carrollton Branch and the Minerva Branch, Ohi-Rail expects to remain a Class III rail carrier after consummation of the proposed transaction. It certifies that the projected annual rail revenue does not exceed \$5 million.

The transaction was scheduled to be consummated shortly after June 20, 2005, but no sooner than the June 21, 2005 effective date of the exemption.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34718, must be filed with the Surface Transportation Board, 1925 K Street, N.W., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Brendan Delay, 619 Linda Street, Suite 101, Rocky River, OH 44116.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: July 1, 2005.

<sup>1</sup> Ohi-Rail indicated that it will interchange traffic on this line with W&LE at the Canton Yard between milepost 0.0 and milepost 1.7.

By the Board, David M. Konschnik,  
Director, Office of Proceedings.

1820, and 1831i.

##### PURPOSE:

This system of records is used by the  
OCC to monitor enforcement actions  
and to assist it in its regulatory  
responsibilities, including review of the  
qualifications and fitness of individuals  
who are or propose to become  
responsible for the business operations  
of OCC-regulated entities.

##### ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information maintained in this system  
may be disclosed to:

(1) An OCC-regulated entity when the  
information is relevant to the entity's  
operations;

(2) Third parties to the extent  
necessary to obtain information that is  
relevant to an examination or  
investigation;

(3) The news media in accordance  
with guidelines contained in 28 CFR  
50.2;

(4) Appropriate governmental or self-  
regulatory organizations when the OCC  
determines that the records are relevant  
and necessary to the governmental or  
self-regulatory organization's regulation  
or supervision of financial service  
providers, including the review of the  
qualifications and fitness of individuals  
who are or propose to become  
responsible for the business operations  
of such providers;

(5) The Department of Justice, a court,  
an adjudicative body, a party in  
litigation, or a witness if the OCC  
determines that the information is  
relevant and necessary to a proceeding  
in which the OCC, any OCC employee  
in his or her official capacity, any OCC  
employee in his or her individual  
capacity represented by the Department  
of Justice or the OCC, or the United  
States is a party or has an interest;

(6) A congressional office when the  
information is relevant to an inquiry  
made at the request of the individual  
about whom the record is maintained;

(7) A contractor or agent who needs  
to have access to this system of records  
to perform an assigned activity; or

(8) Third parties when mandated or  
authorized by statute.
