NUCLEAR REGULATORY COMMISSION

[Docket No. 50-244]

R.E. Ginna Nuclear Power Plant, LLC, R.E. Ginna Nuclear Power Plant; Notice of Receipt and Availability for Comment of Request Regarding Release of Part of Site for Unrestricted Use

AGENCY: U.S. Nuclear Regulatory
 Commission.

ACTION: Notice of receipt and
 availability for comment.

DATES: Comments must be provided in
 writing by August 10, 2005.

FOR FURTHER INFORMATION CONTACT:

Patrick D. Milano, Senior Project
 Manager, Section 1, Project Directorate
 I, Division of Licensing Project
 Management, Office of Nuclear Reactor
 Regulation, U.S. Nuclear Regulatory
 Commission, Washington, DC 20555.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission
 (NRC) has received, by letter dated May
 20, 2005, an application filed by R. E.
 Ginna Nuclear Power Plant, LLC (Ginna
 LLC) requesting the release of a part of
 the site for unrestricted use at its R. E.
 Ginna Nuclear Power Plant (Ginna
 Plant), located in Wayne County, New
 York. An NRC administrative review,
 documented in a letter to Ginna LLC
 dated June 29, 2005, found the request
 acceptable to begin a technical review.
 Before approving the proposed partial
 site release, the NRC will need to
 determine that the licensee has met the
 criteria set forth in Section 50.83,
 "Release of part of a power reactor
 facility or site for unrestricted use," of
 Part 50 of Title 10 of the Code of Federal
 Regulations (10 CFR 50.83). The tract of
 land proposed for release consists of
 two adjacent parcels, comprising a total
 of approximately 15 acres located along
 the western edge of the Ginna Plant site
 boundary, and is entirely outside of the
 Exclusion Area. The release of the part
 of the site would allow Ginna LLC to
 convey the tract of land under a
 Purchase and Sale Contract dated
 September 10, 2002, that was assumed
 from the former licensee of the Ginna
 Plant. Pursuant to this contract
 agreement, the land would be sold to a
 real estate developer for the purpose of
 developing the land for residential use.
 No physical changes to the Ginna Plant
 facility or operational changes are being
 proposed in the application.

The NRC will approve an application
 for partial release of a non-impacted
 area, if it determines that the licensee
 has adequately evaluated the effect of
 releasing the property and has
 adequately justified the classification of
 any release areas as non-impacted.

II. Opportunity To Provide Comments

The NRC is providing notice to
 individuals in the vicinity of the facility
 that the NRC is in receipt of this request,
 and will accept written comments
 concerning this proposal by August 10,
 2005. The comments must be submitted
 to the Secretary, U.S. Nuclear
 Regulatory Commission, Washington,
 DC 20555-0001, Attention: Rulemakings
 and Adjudications Staff, and should cite
