

NSF's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725—17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to splimpto@nsf.gov. Copies of the submission may be obtained by calling (703) 292-7556.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, NSF Reports Clearance Officer at (703) 292-7556 or send e-mail to splimpto@nsf.gov.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Comment: On April 13, 2005, we published in the **Federal Register** (70 FR 19508) a 60-day notice of our intent to request renewal of this information collection authority from OMB. In that notice, we solicited public comments for 60 days ending June 13, 2005. One comment was received from the public notice. The comment came from B. Sachau of Floram Park, NJ, via e-mail on April 18, 2005. Ms. Sachau objected to the Fellowships program, but had no specific suggestions for altering the data collection.

Response: NSF believes that because the comment does not pertain to the collection of information or the required forms for which NSF is seeking OMB approval, NSF is proceeding with the clearance request.

Title of Collection: Fellowship Applications and Award Forms.

OMB Approval Number: 3145-0023.

Type of Request: Intent to seek approval to extend without revision an information collection for three years.

Abstract: Section 10 of the National Science Foundation Act of 1950 (42

U.S.C. 1861 *et seq.*), as amended, states that "The Foundation is authorized to award, within the limits of funds made available * * * scholarships and graduate fellowships for scientific study or scientific work in the mathematical physical, medical, biological, engineering, social, and other sciences at appropriate nonprofit American or nonprofit foreign institutions selected by the recipient of such aid, for stated periods of time."

The Foundation Fellowship Programs are designed to meet the following objectives:

- To assure that some of the Nation's most talented students in the sciences obtain the education necessary to become creative and productive scientific researchers.
- To train or upgrade advanced scientific personnel to enhance their abilities as teachers and researchers.
- To promote graduate education in the sciences, mathematics, and engineering at institutions that have traditionally served ethnic minorities.
- To encourage pursuit of advanced science degrees by students who are members of ethnic groups traditionally under-represented in the Nation's advanced science personnel pool.

The list of fellowship award programs sponsored by the Foundation may be found via FastLane through the NSF Web site: <http://www.fastlane.nsf.gov>.

Estimate of Burden: These are annual award programs with application deadlines varying according to the fellowship program. Public burden may also vary according to program, however it is estimated that each submission is averaged to be 12 hours per respondent.

Respondents: Individuals.

Estimated Number of Responses: 5,000.

Estimated Total Annual Burden on Respondents: 60,000 hours.

Frequency of Responses: Annually.

Dated: July 7, 2005.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-M

ACTION: License amendment.

FOR FURTHER INFORMATION CONTACT: Jill S. Caverly, Project Manager, Spent Fuel Project Office, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-6699; fax number: (301) 415-8555; e-mail: jsc1@nrc.gov.

SUPPLEMENTARY INFORMATION:

By letter dated May 23, 2005, Portland General Electric Company (PGEC) submitted an application to the U.S. Nuclear Regulatory Commission (NRC or Commission), in accordance with Title 10 of the Code of Federal Regulations (10 CFR) 72.48(c)(2) and 10 CFR 72.56, requesting an amendment of the Trojan Independent Spent Fuel Storage Installation (ISFSI) license for the ISFSI located in Columbia County, Oregon. PGEC proposes to revise the designated controlled area at the ISFSI such that the boundary would be moved from 300 meters from the edge of the storage pad to 200 meters from the edge of the storage pad.

This application was docketed under 10 CFR part 72; the ISFSI Docket No. is 72-17. Upon approval of the Commission, the Trojan ISFSI License, No. SNM-2509, Safety Analysis would be amended to allow this action.

The Commission may issue either a notice of hearing or a notice of proposed action and opportunity for hearing in accordance with 10 CFR 72.46(b)(1) regarding the proposed amendment or, if a determination is made that the proposed amendment does not present a genuine issue as to whether public health and safety will be significantly affected, take immediate action on the proposed amendment in accordance with 10 CFR 72.46(b)(2) and provide notice of the action taken and an opportunity for interested persons to request a hearing on whether the action should be rescinded or modified.

For further details with respect to this amendment, see the application dated May 23, 2005, which is publically available in the records component of NRC's Agencywide Documents Access and Management System (ADAMS). The NRC maintains ADAMS, which provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to pdr@nrc.gov.

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-17]

Portland General Electric Company; Trojan Independent Spent Fuel Storage Installation; Notice of Docketing of Materials License No. SNM-2509; Amendment Application

AGENCY: U.S. Nuclear Regulatory Commission.

Dated in Rockville, Maryland, this 30th day of June, 2005.

For the Nuclear Regulatory Commission.

Jill S. Caverly,

Project Manager, Licensing Section, Spent Fuel Project Office, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-260 and 50-296]

Tennessee Valley Authority; Browns Ferry Nuclear Plant, Units 2 and 3; Notice of Consideration of Issuance of Amendments to Facility Operating License and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering issuance of amendments to Facility Operating Licenses No. DPR-52 and DPR-68, issued to Tennessee Valley Authority (the licensees), for operation of the Browns Ferry Nuclear Plant (BFN) Units 2 and 3 located in Limestone County, Alabama.

The proposed amendments would change the BFN, Units 2 and 3 operating licenses to increase the maximum authorized power level from 3458 megawatts thermal (MWt) to 3952 MWt. This change represents an increase of approximately 15 percent above the current maximum authorized power level. The proposed amendments would also change the BFN, Units 2 and 3 licensing bases and any associated technical specifications for containment overpressure.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

Within 60 days after the date of publication of this notice, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult current copies of 10 CFR 2.309, 2.304, and 2.305, which are available at the Commission's Public Document Room (PDR), located at One White Flint

North, Public File Area 01F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. If a request for a hearing and petition for leave to intervene is filed by the above date, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board Panel will rule on the request and petition; and the Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order.

As required by 10 CFR 2.309, a petition for leave to intervene shall set forth with particularity the interest of the petitioner/requestor in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements: (1) The name, address and telephone number of the requestor or petitioner; (2) the nature of the requestor's/petitioner's right under the Act to be made a party to the proceeding; (3) the nature and extent of the requestor's/petitioner's property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the requestor's/petitioner's interest. The petition must also identify the specific contentions which the petitioner/requestor seeks to have litigated in the proceeding.

Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner/requestor shall provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. The petition must include sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment

under consideration. The contention must be one which, if proven, would entitle the petitioner/requestor to relief. A petitioner/requestor who fails to satisfy these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing.

Nontimely requests and petitions and contentions will not be entertained absent a determination by the Commission or the presiding officer of the Atomic Safety and Licensing Board that the petition, request and/or the contentions should be granted based on a balancing of the factors specified in 10 CFR 2.309(a)(1)(i)-(viii).

A request for a hearing and petition for leave to intervene must be filed by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; (2) courier, express mail, or expedited delivery services: Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, Attention: Rulemaking and Adjudications Staff; (3) e-mail addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, HEARINGDOCKET@NRC.GOV; or (4) facsimile transmission addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC, Attention: Rulemakings and Adjudications Staff at (301) 415-1101, verification number is (301) 415-1966. A request for hearing and petition for leave to intervene need not comply with 10 CFR 2.304(b), (c) and (d) if an original and two copies otherwise complying with the requirements of that section are mailed within two (2) days after filing by e-mail or facsimile transmission to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff. A copy of the request for hearing and petition for leave to intervene should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and it is requested that copies be transmitted either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. A copy of the request for hearing and petition for leave to intervene should also be sent to General Counsel, Tennessee Valley Authority, ET 11A, 400 West
