SUPPLEMENTARY INFORMATION:

1. Authorization

This study is authorized in response to a House Resolution dated 8 May 1954, which reads as follows: “Resolved by the Committee on Public Works of the House of Representatives, United States, that the Board of Engineers for Rivers and Harbors is hereby requested to review the reports on (a) San Gabriel River and Tributaries, published as House Document No. 838, 76th Congress, 3rd Session; (b) Santa Ana River and Tributaries, published as House Document No. 135, 81st Congress, 1st Session; and (c) the project authorized by the Flood Control Act of 1936 for the protection of the metropolitan area in Orange County, with a view toward determining the advisability of modification of the authorized projects in the interest of flood control and related purposes.”

2. Background

The Coyote Creek Watershed study includes the Coyote Creek Watershed and the Carbon Canyon Watershed. These watersheds are highly urbanized and drain approximately 165 square miles of densely urbanized residential, commercial and industrial development. The Coyote Creek Watershed is drained by its namesake, Coyote Creek, and two principal tributaries, Fullerton Creek and Brea Creek. Coyote Creek is a concrete-lined trapezoidal channel that ultimately drains into the San Gabriel River. The Carbon Canyon Watershed is drained

principally by Carbon Creek, Fullerton Creek and Brea Creek. These three creeks vary between rectangular and trapezoidal concrete and riprap channels.

The Corps has a total of three flood control dams in the Coyote Creek and Carbon Creek Watersheds: One at the headwaters of Fullerton Creek (Fullerton Dam); one on Brea Creek (Brea Dam); and the other on Carbon Creek (Carbon Canyon Dam). In addition to the flood control dams, there are six detention basins along Carbon Creek that are used for groundwater recharge and flood control.

3. Proposed Action

Although no specific proposed action has been identified to date, opportunities exist for multipurpose water quality improvements, ecosystem restoration, recreation and education.

4. Alternatives

Although no specific alternative plans have been identified to date, a full array of alternatives to the proposed action will be developed for analyses, including the no action plan.

SUMMARY: The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before September 12, 2005.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency’s ability to perform its

statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
