DEPARTMENT OF THE INTERIOR

Minerals Management Service

Agency Information Collection Activities: Proposed Collection, Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of a revision of a currently approved information collection (OMB Control Number 1010-0136).

SUMMARY: To comply with the Paperwork Reduction Act (PRA) of 1995, we are inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The new title of this information collection request (ICR) is titled "30 CFR PART 206—PRODUCT VALUATION, subpart C—Federal Oil and subpart D—Federal Gas (Form MMS-4393, Request to Exceed Regulatory Allowance Limitation)." We changed the title of this information collection request (ICR) to clarify the regulatory language we are covering under 30 CFR part 206, and to incorporate relevant portions of three previous ICRs. The three ICRs, now consolidated into this ICR, were previously titled:

- 1010-0095: 30 CFR Part 206—Product Valuation (Request to Exceed Transportation and Processing Allowance Limitation), subpart B—Indian Oil, § 206.54(b)(2); subpart C—Federal Oil, § 206.109(c)(2); subpart D—Federal Gas, §§ 206.156(c)(3), 206.158(c)(3), and 206.158(d)(2)(i); and subpart E—Indian Gas, §§ 206.177(c)(2) and 206.177(c)(3);
- 1010-0136: 30 CFR 206—subpart C, Federal Oil Valuation; and
- 1010-0157: 30 CFR 206—subpart C, Federal Oil.

Citations concerning Indian oil and gas, referred to in the above three ICRs, are currently covered in ICR 1010-0103.

DATES: Submit written comments on or before September 20, 2005.

ADDRESSES: Submit written comments to Sharron L. Gebhardt, Lead Regulatory Specialist, Minerals Management Service, Minerals Revenue Management, P.O. Box 25165, MS 302B2, Denver, Colorado 80225. If you use an overnight courier service or wish to hand carry your comments, our courier address is Building 85, Room A-614, Denver Federal Center, Denver, Colorado 80225. You may also e-mail your comments to us at mrm.comments@mms.gov. Include the title of the information collection and the OMB control number in the "Attention" line of your comment. Also include your name and return address. Submit electronic comments as an ASCII file avoiding the use of special characters and any form of encryption. If you do not receive a confirmation that we have received your e-mail, contact Ms. Gebhardt at (303) 231-3211.

FOR FURTHER INFORMATION CONTACT: Sharron L. Gebhardt, telephone (303) 231-3211, FAX (303) 231-3781, or e-mail sharron.gebhardt@mms.gov.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR PART 206—PRODUCT VALUATION, subpart C—Federal Oil and subpart D—Federal Gas (Form MMS-4393, Request to Exceed Regulatory Allowance Limitation).

OMB Control Number: 1010-0136.

Bureau Form Number: Form MMS-4393.

Abstract: The Department of the Interior is responsible for matters relevant to mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary of the Interior is responsible for managing the production of minerals from Federal and Indian lands and the OCS, collecting royalties from lessees who produce minerals, and distributing the funds collected in accordance with applicable laws. The MMS assists the Secretary in performing the royalty management functions.

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share (royalty) of the value received from production from the leased lands. The lease creates a business relationship between the lessor and the lessee. The lessee is required to report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is similar to data reported to private and public mineral interest owners and is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling of such minerals. The

information collected includes data necessary to ensure that the royalties are paid appropriately.

Section 101(a) of the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA), as amended, requires that the Secretary "establish a comprehensive inspection, collection, and fiscal and production accounting and auditing system to provide the capability to accurately determine oil and gas royalties, interest, fines, penalties, fees, deposits, and other payments owed, and collect and account for such amounts in a timely manner." In order to accomplish these tasks, MMS developed valuation regulations for Federal leases at 30 CFR part 206—Product Valuation. Market value is a basic principle underlying royalty valuation. Consequently, these regulations include methods to capture the true market value of crude oil and gas produced from Federal leases, both onshore and offshore. The valuation regulations at 30 CFR part 206 require companies to collect and/or submit information used to value their Federal oil and gas.

The MMS uses the information collected to ensure that proper royalty is paid on oil and gas produced from Federal onshore and offshore leases. Please refer to the chart for all reporting requirements and associated burden hours. Regulations developed ensure the information requested is the minimum necessary to carry out our mission and places the least possible burden on respondents. The requested information provides a critical link to establishing the proper value of oil and gas from Federal lands. If the information is not collected, it may result in a loss of royalties for both Federal and state governments.

Transportation and Processing Allowances

Under certain circumstances, lessees are authorized to claim a transportation allowance for the reasonable actual costs of transporting the royalty portion of produced oil and gas from the lease to a processing or sales point not in the immediate lease area.

When gas is processed for the recovery of gas plant products, lessees may claim a processing allowance. Transportation and processing allowances are a part of the product valuation process that MMS uses to determine if the lessee is reporting and paying the proper royalty amount.

The regulations establish a limit on transportation allowance deductions for oil and gas at 50 percent of the value of the oil and gas at the point of sale. The MMS may approve a transportation

allowance in excess of 50 percent upon proper application from the lessee. Similarly, the regulations establish a limit of 66 $\frac{2}{3}$ percent of the value of each gas plant product as an allowable gas processing deduction. The MMS may also approve a processing allowance in excess of 66 $\frac{2}{3}$ percent upon proper application from the lessee.

Request To Exceed Regulatory Allowance Limitation

The MMS may approve an allowance exceeding the regulatory allowance limit upon proper application from the lessee. To request permission to exceed a regulatory allowance limit, lessees must write a letter to MMS explaining why a higher allowance limit is necessary and provide supporting documentation. The MMS developed Form MMS-4393, Request to Exceed Regulatory Allowance Limitation, to accompany the lessee's letter requesting approval to exceed the regulatory allowance limit. This form provides MMS with the data necessary to make a decision and track deductions on royalty reports. Data reported on the form is also subject to subsequent audit and adjustment.

Proprietary information submitted to MMS under this collection is protected, and no items of a sensitive nature are collected. A response is mandatory for valuation requirements and required to obtain the benefit of allowances.

Frequency of Response: Monthly, and when necessary, annually.

Estimated Number and Description of Respondents: 100 Federal lessees.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 21,815 hours.

We are revising this ICR to include non-standard reporting requirements that were overlooked in the previous renewal, and we have adjusted the burden hours accordingly. The hours also reflect our recent analysis related to the implementation of the 2004 Federal Oil Valuation rule and the 2005 Federal

Gas Valuation rule. We have not included in our estimates certain requirements performed in the normal course of business and considered usual and customary. The following chart shows the breakdown of the estimated burden hours by CFR section and paragraph:

Subpart C—Federal Oil				
§ 206.102 How do I calculate royalty value for oil that I or my affiliate sell(s) under an arm's-length contract?				
206.102(e)(1)	206.102(e) If you value oil under paragraph (a) of this section: (1) MMS may require you to certify that your or your affiliate's arm's-length contract provisions include all of the consideration the buyer must pay, either directly or indirectly, for the oil. Estimated Annual Reporting and Recordkeeping "Non-hour Cost" Burden: We have identified no "non-hour" cost burdens.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Comments: Before submitting an ICR to OMB, PRA Section 3506(c)(2)(A) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of

automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting "non-hour cost" burden to respondents or recordkeepers resulting from the collection of information. We have not identified non-hour cost burdens for this information collection. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the

information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request. The ICR also will be posted on our Web site at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm.

Public Comment Policy: We will post all comments in response to this notice on our Web site at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm. We also will make copies of the comments available for public review, including names and addresses of respondents, during regular business hours at our offices in Lakewood, Colorado. Upon request, we will withhold an individual respondent's home address from the public record, as allowable by law. There also may be circumstances in which we would withhold from the rulemaking record a respondent's

identity, as allowable by law. If you request that we withhold your name and/or address, state your request prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Quarterly Status Report of Water Service, Repayment, and Other Water-Related Contract Negotiations

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given of contractual actions that have been proposed to the Bureau of Reclamation (Reclamation) and are new, modified, discontinued, or completed since the last publication of this notice on April 19, 2005. This notice is one of a variety of means used to inform the public about proposed contractual actions for capital recovery and management of project resources and facilities consistent with section 9(f) of the Reclamation Project Act of 1939. Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

ADDRESSES: The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Sandra L. Simons, Manager, Contract Services Office, Bureau of Reclamation, P.O. Box 25007, Denver, Colorado 80225-0007; telephone (303) 445-2902.

SUPPLEMENTARY INFORMATION: Consistent with section 9(f) of the Reclamation

Project Act of 1939 and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.
2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.
3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act, as amended.
4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the

time limits set forth in the advance public notices.

5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his designated public contact as they become available for review and comment.

7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to (i) the significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director shall furnish revised contracts to all parties who requested the contract in response to the initial public notice.

The March 10, 2005, notice should be used as a reference point to identify changes. The numbering system in this notice corresponds with the numbering system in the March 10, 2005, notice.
