SUPPLEMENTARY INFORMATION:

Background

Section 204(d) of the Magnuson-Stevens Act (16 U.S.C. 1824(d)) provides, among other things, that the Secretary of Commerce (Secretary) may issue a transshipment permit which authorizes a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or

fish products at sea from a point within the U.S. Exclusive Economic Zone (EEZ) or, with the concurrence of a state, within the boundaries of that state to a point outside the United States.

Section 204(d)(3)(D) of the Magnuson-Stevens Act provides that an application may not be approved until the Secretary determines that "no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated ... an interest in performing the transportation at fair and reasonable rates." NMFS is publishing this notice as part of its effort to make such a determination with respect to the application described below.

Summary of Application

NMFS has received an application requesting authorization for a Mexican vessel to receive, within the Pacific waters of the U.S. EEZ south of 38°00' N. lat., transfers of live tuna from U.S. purse seiners for the purpose of transporting the tuna alive to an aquaculture facility located in Baja California, Mexico.

Interested U.S. vessel owners and operators may obtain a copy of the complete application from NMFS (see **ADDRESSES**).

Dated: July 27, 2005.

Acting Director, Office of International Affairs, National Marine Fisheries Service.

Patent and Trademark Office

Submission for OMB Review; Comment Request

The United States Patent and Trademark Office (USPTO) has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: United States Patent and Trademark Office (USPTO).

Title: Substantive Submissions Made During Prosecution of the Trademark Application.

Form Number(s): PTO Form 1553, 1581, 2000, 2194, 2195, 2200, 2202.

Type of Request: New collection.
Burden: 29,174 hours.

Number of Respondents: 183,710 responses.

Avg. Hours Per Response: 3 to 20 minutes. This includes time to gather the necessary information, create the documents, and mail the completed request. The time estimates shown for the electronic forms in this collection are based on the average amount of time needed to complete and electronically file the associated form.

Needs and Uses: The information in this collection is a matter of public record and is used by the public for a variety of private business purposes related to establishing and enforcing trademark rights. At this time, the USPTO is proposing to split collection 0651-0009, Trademark Processing, into four separate collections based upon the structure of the Trademark business processes. The USPTO believes that dividing this extensive collection into smaller, more manageable, information collection requests will result in a more efficient updating and renewal process. This new collection is one of the newly created, or "split" groups.

The USPTO is proposing to add two paper submissions into this collection, namely "Request to Delete Section 1(b) Basis, Intent to Use" and "Request for Express Abandonment (Withdrawal) of Application." The electronic versions of these submissions were additions to collection 0651-0009, which was recently approved by OMB on December 2, 2004.

The USPTO is also proposing to add a new category into this collection, "Other Petitions." "Other Petitions" includes all petitions other than "Petitions to Revive." "Other Petitions" cannot be submitted electronically.

The remaining 12 items in this collection were part of the existing approved 0651-0009 collection.

Affected Public: Individuals or households; business or other for-profit; not-for-profit institutions; farms, the Federal Government, and State, local or Tribal governments.
