support the action that is involved in the proceeding;

5. Provide a concise statement of the alleged facts or expert opinions which support the requestor’s/petitioner’s position on the issue and on which the requestor/petitioner intends to rely to support its position on the issue; and

6. Provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. This information must include references to specific portions of the application that the requestor/petitioner disputes and the supporting reasons for each dispute, or, if the requestor/petitioner believes the application fails to contain information on a relevant matter as required by law, the identification of each failure and the supporting reasons for the requestor’s/petitioner’s belief.

In addition, in accordance with 10 CFR 2.309(f)(2), contentions must be based on documents or other information available at the time the petition is to be filed, such as the application or other supporting documents filed by the applicant, or otherwise available to the petitioner. Contentions may be amended or new contentions filed after the initial filing only with leave of the presiding officer. Requestors/petitioners should, when possible, consult with each other in preparing contentions and combine similar subject matter concerns into a joint contention, for which one of the co-sponsoring requestors/petitioners is designated the lead representative.

Further, in accordance with 10 CFR 2.309(f)(3), any requestor/petitioner that wishes to adopt a contention proposed by another requestor/petitioner must do so in writing within ten days of the date the contention is filed, and designate a representative who shall have the authority to act for the requestor/petitioner.

In accordance with 10 CFR 2.309(g), a request for hearing and/or petition for leave to intervene may also address the selection of the hearing procedures, taking into account the provisions of 10 CFR 2.310.

III. Further Information

Documents related to this action, including the application for the license amendment and supporting documentation, are available electronically at the NRC’s Electronic Reading Room at http://www.nrc.gov/reading-rm/adams.html. From this site, you can access the NRC’s Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC’s public documents. The documents currently on file include the Pa’ina Hawaii, LLC, License Application dated June 23, 2005 (ADAMS Accession No. ML052060372). Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC Public Document Room (PDR) Reference staff by telephone at (800) 397–4209 or (301) 415–4737, or by e-mail to pdr@nrc.gov.

These documents may also be viewed electronically on the public computers located at the NRC’s PDR, O 1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee.

Documents related to this action not specifically referenced in this Notice may not be electronically available and/or may not be publicly available. Persons who have an interest in reviewing these documents should submit a request to NRC under the Freedom of Information Act (FOIA). Instructions for submitting a FOIA request can be found on the NRC’s Web site at http://www.nrc.gov/reading-rm/foia/foia-privacy.html.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–272 and 50–311]

PSEG Nuclear LLC, Salem Nuclear Generating Station, Unit Nos. 1 and 2; Notice of Consideration of Approval of Transfer of Facility Operating Licenses and Conforming Amendments and Opportunity for a Hearing

The Nuclear Regulatory Commission [NRC or the Commission] is considering the issuance of an order under Title 10 of the Code of Federal Regulations (10 CFR) Section 50.80 approving the transfer of Facility Operating License Nos. DPR–70 and DPR–75 for the Salem Nuclear Generating Station, Unit Nos. 1 and 2 (Salem), respectively, to the extent currently held by PSEG Nuclear LLC (PSEG) to Exelon Generation Company, LLC (Exelon). PSEG is the licensed operator of Salem. PSEG and Exelon currently own 57.41 percent and 42.59 percent, respectively, of Salem. The transfer of PSEG’s ownership interests and operating authority to Exelon is part of the proposed merger of PSEG’s parent corporation, Public Service Enterprise Group, into Exelon Corporation, the indirect parent company of Exelon. The Commission is also considering amending the licenses for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by PSEG, Exelon would assume title to PSEG’s interest in the facility following approval of the proposed license transfers, while retaining its current ownership interests, such that Exelon would own 100 percent of Salem, and would become responsible for the operation, maintenance, and eventual decommissioning of Salem. No physical changes to the Salem facility or operational changes are being proposed in the application.

The proposed amendments would delete references to PSEG, or replace references to PSEG in the licenses with references to Exelon, as appropriate, to reflect the proposed transfer. Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve the application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the
license transfer application, are discussed below.

Within 20 days of the date of publication of this notice, any person whose interest may be affected by the Commission’s action on the application may request a hearing and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission’s action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission’s rules of practice set forth in Subpart C “Rules of General Applicability: Hearing Requests, Petitions to Intervene, Availability of Documents, Selection of Specific Hearing Procedures, Presiding Officer Powers, and General Hearing Management for NRC Adjudicatory Hearings,” of 10 CFR Part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.309. Untimely requests and petitions may be denied, as provided in 10 CFR 2.309(c)(1), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.309(c)(1)(i)–(viii).

Requests for a hearing and petitions for leave to intervene should be served, pursuant to 10 CFR 2.302 and 2.305, upon Thomas S. O’Neill, Vice President and Counsel, Exelon Nuclear, 4300 Winfield Road, Warrenville, Illinois 60555, telephone 630-657-3770, fax 630-657-4335, and e-mail thomas.oneill@exeloncorp.com; Jeffrie J. Keenan, Esq., PSEG Nuclear LLC, P. O. Box 236, N–21, Hancocks Bridge, New Jersey 08038, telephone 856-339-5429, fax 856-339-1234, and e-mail jeff.keenan@pseg.com; the General Counsel, NRC, Washington, DC 20555-0001, e-mail address for filings regarding license transfer cases only: OGCLT@NRC.gov; and the Secretary of the Commission, NRC, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held, and designating the Presiding Officer. A notice granting a hearing will be published in the Federal Register and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, within 30 days after the date of publication of this notice, persons may submit written comments regarding the license transfer application, as provided in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, NRC, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this Federal Register notice.

For further details with respect to this action, see the application dated March 4, 2005, (ML050750110) available for public inspection at the Commission’s Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System’s (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, http://www.nrc.gov/reading-rm/adams.html. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-387-4209, 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland this 26th day of July 2005.

FULL NUCLEAR REGULATORY COMMISSION

[Docket No. 50–354]

PSEG Nuclear LLC, Hope Creek Generating Station; Notice of Consideration of Approval of Transfer of Facility Operating License and Conforming Amendment and Opportunity for a Hearing

The Nuclear Regulatory Commission (NRC or the Commission) is considering the issuance of an order under title 10 of the Code of Federal Regulations (10 CFR) section 50.80 approving the transfer of Facility Operating License No. NPF–57 for the Hope Creek Generating Station (Hope Creek) currently held by PSEG Nuclear LLC (PSEG), as owner and licensed operator of Hope Creek, to Exelon Generation Company, LLC (Exelon). The transfer of PSEG’s ownership interests and operating authority to Exelon is part of the proposed merger of PSEG’s parent corporation, Public Service Enterprise Group, into Exelon Corporation, the indirect parent company of Exelon. The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by PSEG, Exelon would assume title to the facility following approval of the proposed license transfer, and would be responsible for the operation, maintenance, and eventual decommissioning of Hope Creek. No physical changes to the Hope Creek facility or operational changes are being proposed in the application.

The proposed amendment would replace references to PSEG in the license with references to Exelon to reflect the proposed transfer.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.
