

Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on April 13, 2004 (69 FR 19644). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

**Background and Purpose**

On October 25, 2000, Cove Point LNG Limited Partnership submitted a Letter of Intent to reopen the LNG Terminal at Cove Point, Calvert County, Maryland, located on the Chesapeake Bay. On December 23, 2002, the Captain of the Port, Baltimore, submitted a Letter of Recommendation addressing several

items pertaining to the suitability of the Chesapeake Bay for LNG transport.

One item dealt with the depth of water required to accommodate the maximum 36 foot draft of a typical LNG tanker. It was noted that the northern berth of the Cove Point LNG terminal pier was able to accommodate vessels with this draft. However, the 36 foot mean low water depth of the southern berth (38°24' N, 76°23' W) could not. The Letter of Recommendation, therefore, noted that the south berth would not be suitable for LNG marine traffic unless the water depth was increased by dredging.

On April 28, 2005, Dominion Cove Point LNG Limited Partnership submitted a letter to the Captain of the Port, Baltimore, requesting approval to receive LNG tankers at the south berth, provided that the vessels had a fully laden draft of no more than 34 feet. These smaller vessels could be accommodated at the Cove Point facility's south berth without dredging.

The Coast Guard understands that if this request is approved, operations at Cove Point will not change other than allowing smaller LNG tankers to moor at the south berth. There will still only be one LNG vessel moored at Cove Point at any given time.

No public meeting is currently planned to discuss this issue. However, if the response from this request for comment implies that a public meeting is strongly desired, we will schedule one.

Dated: July 20, 2005.

**Bureau of Customs and Border Protection**

**Automated Commercial Environment (ACE): National Customs Automation Program Test of Periodic Monthly Payment Statement Process**

**AGENCY:** Bureau of Customs and Border Protection; Department of Homeland Security.

**ACTION:** General notice.

**SUMMARY:** This document announces changes in the Bureau of Customs and Border Protection's (CBP) National Customs Automation Program (NCAP) test concerning periodic monthly

deposit of estimated duties and fees. A change to the time period allowed for the deposit of the duties and fees is being made in order to comply with the provisions of section 2004 of the Miscellaneous Trade and Technical Corrections Act of 2004, Public Law 108-429, which extended the time of deposit of those estimated duties and fees from the 15th calendar day to the 15th working day of the month following the month in which the goods are either entered or released. Another change being made concerns whether CBP will establish a claim for liquidated damages when a participant removes an entry from a Periodic Daily Statement or a Preliminary Monthly Statement after expiration of a 10-working-day period after release. This document also advises that entries containing Census errors will be eligible to be placed on a Periodic Daily Statement and designated for monthly payment. The latter two changes are being made in order to increase the efficiencies of the Automated Commercial Environment (ACE) and to encourage participation in the Periodic Monthly Statement process.

**DATES:** The changes announced in this notice concerning the time of payment of duties and fees and the assessment of liquidated damages will take effect on August 8, 2005. The change announced concerning the placement of Census errors on the Periodic Daily Statement will take effect on August 1, 2005.

**FOR FURTHER INFORMATION CONTACT:** For questions regarding periodic monthly statement payments: Ms. Sherri Hoffman via email at [Sherri.hoffman@dhs.gov](mailto:Sherri.hoffman@dhs.gov), and Mr. Robert Hamilton via email at [Robert.b.hamilton@dhs.gov](mailto:Robert.b.hamilton@dhs.gov), or by telephone at (317) 298-1107.

**SUPPLEMENTARY INFORMATION:**

**Background**

On February 4, 2004, the Bureau of Customs and Border Protection (CBP) published a General Notice in the **Federal Register** (69 FR 5362) announcing the National Customs Automation Program (NCAP) test for Periodic Monthly Payment Statement Process. The test, which is part of CBP's Automated Commercial Environment (ACE), benefits participants by giving them access to operational data through the ACE Secured Data Portal ("ACE Portal"), which provides them the capability to interact electronically with CBP, and by allowing them to deposit estimated duties and fees on a monthly basis based on a Periodic Monthly Statement issued by CBP.

When the test started, only importers were eligible to apply for the test.
