

expressed a renewed desire to serve their country by volunteering in their community. Now, we have an obligation to ensure that Americans have quality opportunities to serve. The Corporation for National and Community Service (the "Corporation") has amended several provisions relating to the AmeriCorps national service program, and has added a rule to clarify the Corporation's requirements for program sustainability, performance measures and evaluation, capacity-building activities by AmeriCorps members, qualifications for tutors, and other requirements. The implementation of these changes through the rulemaking process includes ensuring the Corporation's information collection instruments accurately reflect these issues. In an effort to be compliant while maintaining functions essential to the operations of each State Commission and AmeriCorps program, we are submitting the enclosed request to OMB for approval of information collection activities.

POLICY JUSTIFICATION

Egypt – M109A5 155mm Self-propelled Howitzers

The Government of Egypt has requested a possible sale of 200 M109A5 155mm self-propelled howitzers, overhaul/refurbishment, intercoms, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, Quality Assurance Team, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$181 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

We previously notified transmittal number 00-39 to Congress on 24 May 2000 for the sale of 279 M109A2/A3 155mm self-propelled howitzers and logistics support for an estimated value of \$48 million and transmittal number 02-10 to Congress on 6 November 2001 for overhaul/refurbishment of 201 M109A2/A3 155mm self-propelled howitzers and logistics support for an estimated value of \$77 million.

Egypt will use the M109A5 howitzers primarily in support of its armed forces, but may also use them in joint exercises with the U.S. Government. The howitzers will improve Egypt's current fleet of ground defense equipment. Egypt will have no difficulty absorbing the howitzers into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

Equipment is considered long supply and is no longer utilized by the U.S. Government. The prime contractor will be United Defense, Limited Partnership of York, Pennsylvania for the overhaul/refurbishing of the howitzers. There are no known offset agreements proposed in connection with this potential sale.

Up to six U.S. Government Quality Assurance representatives will be required for two weeks intervals to participate in program management and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
