Notice is hereby given that a proposed Consent Decree in *United States of America and the State of Maryland v. Baltimore County, Maryland*, AMD 05CV2028, was lodged on July 26, 2005, with the United States District Court for the District of Maryland.

In the complaint filed in this matter, the United States alleges violations of section 301 of the Clean Water Act, 33 U.S.C. 1311, and Maryland alleges violations of Sections 9-322 and 9-323 of the Maryland Environment Article, arising from unpermitted discharges of wastewater from Baltimore County's sanitary sewer collection system to various waters of the United States and the State. The proposed Consent Decree would resolve the United States' and Maryland's claims set forth in the complaint through Baltimore County's performance of injunctive measures, the payment of a civil penalty of \$750,000 (shared equally by the United States and Maryland), and the performance of three supplemental Environmental Projects ("SEPs") valued at no less than \$4,500,000. Baltimore County has estimated that the injunctive measures, which include comprehensive inspection, rehabilitation, and repair requirements for sewer lines, pump stations, and other system components, will cost in excess of \$800,000,000 to implement over the 14½ year schedule set forth in the consent decree.
