Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)

Agency: Center for Medicare & Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collection referenced below. In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. We are requesting an emergency review because the collection of this information is needed before the expiration of the normal time limits under OMB's regulations at 5 CFR part 1320. This is necessary to ensure compliance with an initiative of the Administration. We cannot reasonably comply with the normal clearance procedures because of an unanticipated event.

Department regulations in 45 CFR 146.121(i)(4) require that if coverage has been denied to any individual because the sponsor of a self-funded non-Federal governmental plan has elected under 45 CFR part 146 to exempt the plan from the requirements of § 146.121, and the plan sponsor subsequently chooses to bring the plan into compliance, the plan must: Notify the individual that the plan will be coming into compliance; afford the individual an opportunity to enroll that continues for at least 30 days; specify the effective date of compliance; and inform the individual regarding any enrollment restrictions that may apply once the plan is in compliance.

The burden associated with this requirement was approved by The Office of Management and Budget (OMB) under OMB control number 0938-0827. However, this OMB control number was inadvertently discontinued prior to its renewal date. CMS is seeking the re-instatement of this control number as none of the requirements have changed. In accordance with the Paperwork Reduction Act of 1995, the reinstatement request will be addressed in an emergency information collection request. In addition, CMS-2078-P (66 FR 1421) describes bona fide wellness programs. Section 146.121(f)(1)(iv) stipulates that the plan or issuer disclose in all plan materials describing the terms of the program the availability of a reasonable alternative standard to qualify for the reward under a wellness program. However, in plan materials that merely mention that a program is available, without describing its terms, the disclosure is not required.

The burden associated with this requirement was approved by The Office of Management and Budget (OMB) under OMB control number 0938-0819. However, this OMB control number was inadvertently discontinued prior to its renewal date. CMS is seeking

the re-instatement of this control number as none of the requirements have changed. In accordance with the Paperwork Reduction Act of 1995, the reinstatement request will be addressed in an emergency information collection request.

1. Type of Information Collection Request: Extension of a currently approved collection; **Title of Information Collection:** Request for Certification as Rural Health Clinic and Rural Health Clinic Survey Report Form and Supporting Regulations in 42 CFR 491.1-491.11; **Form No.:** CMS-29 and CMS-30 (OMB #0938-0074); **Use:** The form CMS-29 is utilized as an application to be completed by suppliers of Rural Health Clinic (RHC) services requesting participation in the Medicare/Medicaid programs. This form initiates the process of obtaining a decision as to whether the conditions for certification are met as a supplier of RHC services. It also promotes data reduction or introduction to and retrieval from the Online Survey and Certification and Reporting System (OSCAR) by CMS Regional Offices (RO). The Form CMS-30 is an instrument used by the State survey agency to record data collected in order to determine RHC compliance with individual conditions of participation and to report it to the Federal government. The form is primarily a coding worksheet designed to facilitate data reduction (keypunching) and retrieval into OSCAR at the CMS ROs. The form includes basic information on compliance (*i.e.*, met, not met and explanatory statements) and does not require any descriptive information regarding the survey activity itself; **Frequency:** Reporting—Annually; **Affected Public:** State, Local or Tribal Government; **Number of Respondents:** 698; **Total Annual Responses:** 698; **Total Annual Hours:** 1,222.

These data will be made publicly available to Medicare beneficiaries through the new Medicare prescription drug plan finder tool that will be launched in the fall of 2005 on <http://www.medicare.gov>.
