

activity and the location of the proposed activity, the number of potential harassment takings is estimated to be small. In addition, no take by injury and/or death is anticipated, and there is no potential for temporary or permanent hearing impairment as a result of the activities. No rookeries, mating grounds, areas of concentrated feeding, or other areas of special significance for marine mammals occur within or near the relocation route.

The principal measures undertaken to ensure that the barging operation will not have an adverse impact on subsistence activities is a CAA between FEX, the AEWC and the Whaling Captains Association, a Plan of Cooperation, and an operation schedule that will not permit barging operations during the traditional bowhead whaling season.

Determinations

NMFS has issued an IHA for the harassment of marine mammals incidental to FEX conducting a barging operation for approximately 20 days from West Dock, Prudhoe Bay Alaska, through the U.S. Beaufort Sea to Cape Simpson. This IHA is contingent upon incorporation of the previously mentioned mitigation, monitoring, and reporting requirements. NMFS has determined that this activity would result in the harassment of small numbers of bowhead whales, beluga whales, ringed seals, bearded seals and spotted seals; would have no more than a negligible impact on these marine mammal stocks; and would not have an unmitigable adverse impact on the availability of marine mammal stocks for subsistence since the previously described CAA has been signed.

Authorization

NMFS has issued an IHA to FEX L.P. to take a small number of marine mammals incidental to conducting a barging operation within the U.S. Beaufort Sea, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: August 8, 2005.

National Oceanic and Atmospheric Administration

[I.D. 072605B]

Endangered Species; File No. 1518

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that Carlos Diez, Departamento de Recursos Naturales y Ambientales de Puerto Rico, P.O. Box 9066600, San Juan, Puerto Rico 00906-6600, has been issued a permit to take hawksbill (*Eretmochelys imbricata*) and green (*Chelonia mydas*) sea turtles for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and

Southeast Region, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701; phone (727)824-5312; fax (727)824-5517.

FOR FURTHER INFORMATION CONTACT:

Patrick Opay or Ruth Johnson, (301)713-2289.

SUPPLEMENTARY INFORMATION: On May 27, 2005, notice was published in the **Federal Register** (70 FR 30704) that a request for a scientific research permit to take hawksbill and green sea turtles had been submitted by the above-named individual. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 1518 authorizes Mr. Diez to study green and hawksbill sea turtles. The purpose of the research is to identify marine habitat, determine distribution and abundance, determine sex ratios, evaluate the extent of ingestion of marine debris, determine growth rates and sexual maturity, and quantify threats. Mr. Diez will annually capture up to 320 hawksbill and 250 green sea turtles by hand or entanglement net. All turtles will be measured, weighed, tagged, and blood sampled. A subset of animals will be lavaged and have transmitters attached to them. One leatherback sea turtle

could be incidentally captured during the course of the studies but would be released alive. The permit is issued for 5 years.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of any endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: August 8, 2005.

Stephen L. Leathery,

*Chief, Permits, Conservation and Education Division, Office of Protected Resources,
National Marine Fisheries Service.*
