Fisheries Off West Coast States and in the Western Pacific; Western Pacific Pelagic Fisheries; Sea Turtle Mitigation Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: This proposed rule would set requirements for attending protected species workshops, for handling, resuscitating, and releasing sea turtles that are hooked or entangled in fishing gear, and for fishing gear configuration. The proposed rule is intended to reduce and mitigate interactions between sea turtles and vessels managed under the Fishery Management Plan for the Pelagic Fisheries of the Western Pacific Region (Pelagics FMP). This action is being taken to comply with the terms and conditions of a 2004 Biological Opinion resulting from a section 7 consultation under the Endangered Species Act (ESA) on interactions between sea turtles and fisheries managed under the Pelagic FMP.

DATES: Comments on the proposed rule must be received by September 14, 2005.

ADDRESSES: You may submit comments on this proposed rule or its Initial Regulatory Flexibility Analysis (IRFA), identified by 0648-AQ91 by any of the following methods:

SUPPLEMENTARY INFORMATION: NMFS conducted a section 7 consultation under the Endangered Species Act (ESA) on interactions between sea turtles and fisheries managed under the Pelagic FMP. The result of this consultation was a Biological Opinion that was issued on February 23, 2004 (2004 Opinion). The 2004 Opinion concluded that the fisheries managed under the Pelagics FMP were not likely to jeopardize the continued existence of sea turtles or other species listed as threatened or endangered under the ESA. Included in the actions considered under the 2004 Opinion were several measures required by a previous (15 November 2002) Biological Opinion (2002 Opinion) on the Pelagics FMP fisheries. These measures were vacated on 1 April 2004, by a Federal Court order. The requirements for general longline permits were additional to those pre-existing requirements for Hawaii-based longline limited access permit holders. Terms and conditions of the 2004 Opinion required: (a) owners and operators of vessels registered for use under longline general permits to attend protected species workshops annually; (b) owners and operators of vessels registered for use under longline general permits to carry and use dip nets, line clippers, and bolt cutters, and follow sea turtle handling, resuscitation, and release requirements for
