

the congressional mandate requires the Advisory Committee to conduct objective, nonpartisan, and independent analyses on important aspects of the student assistance programs under Title IV of the Higher Education Act. In addition, Congress expanded the Advisory Committee's mission in the Higher Education Amendments of 1998 to include several important areas: access, Title IV modernization, distance education, and early information and needs assessment. Specifically, the Advisory Committee is to review, monitor and evaluate the Department of Education's progress in these areas and report recommended improvements to Congress and the Secretary.

The Advisory Committee has scheduled this symposium to examine the current condition of college access and persistence in honor of the 40th anniversary of the Higher Education Act (HEA) of 1965. The proposed agenda includes expert testimony and discussions by prominent researchers and scholars who will (a) examine the HEA's past achievements as well as the financial barriers to college that continue to confront low- and moderate-income students, (b) highlight exemplary strategies at the federal, state, and institutional levels that can be implemented to ensure that more low- and moderate-income students have a chance to succeed in college, and (c) address the Advisory Committee's current reauthorization proposal to renew the nation's access and persistence partnership.

Space for the symposium is limited and you are encouraged to register early if you plan to attend. You may register by sending an e-mail to the following address: ACSFA@ed.gov or Tracy.DeannaJones@ed.gov. Please include your name, title, affiliation, complete address (including internet and e-mail, if available), and telephone and fax numbers.
