[Docket No. FAA-2005-22100 Airspace Docket No. 05-AEA-16]

Proposed Amendment to Class E Airspace; Binghamton, NY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking

SUMMARY: This notice proposes to amend the Class E airspace area in the Binghamton, NY area. The development of multiple area navigation (RNAV) Standard Instrument Approach Procedures (SIAP) for numerous airports within the Binghamton, NY area with approved Instrument Flight Rules (IFR) operations and the resulting overlap of designated Class E-5 airspace have made this proposal necessary. The proposal would correct the name of the airport and update the Airport Reference Point (ARP). The proposal would consolidate the Class E-5 airspace designations for six airports in the Binghamton area and result in the rescission of five separate Class E-5 descriptions through separate rulemaking action. The area would be depicted on aeronautical charts for pilot reference.

DATES: Comments must be received on or before September 22, 2005.

ADDRESSES: Send comments on the proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. The Proposal

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend the Class E airspace within the Binghamton, NY area. The proposal would consolidate the following airport Class E-5 airspace designations into the Binghamton, NY designation: Cortland, NY, Cortland County-Chase Field

Airport (N03); Ithaca, NY, Tompkins County Airport (ITH); Elmira, NY, Elmira/Corning Regional Airport (ELM); Endicott, NY, Tri-Cities Airport (CZG); and Sayre, PA, Robert Parker Hospital Heliport. This action would result in the rescission of five Class E-5 designations under a separate docket. The affected airspace would subsequently be incorporated into the Binghamton, NY description. The airspace will be defined to accommodate the approaches and contain IFR operations to and from those airports. This change would have no impact on aircraft operations since the type of airspace designation is not changing. Furthermore, the IFR approach procedures for the individual airports within the are would not be affected. Class E airspace designations for airspace areas extending upward from 700 ft. or more above the surface are published in Paragraph 6005 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR Part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR Part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, is proposed to be amended as follows:
