

community. Now, we have an obligation to ensure that Americans have quality opportunities to serve. The Corporation has amended several provisions relating to the AmeriCorps national service program, and has added a rule to clarify the Corporation's requirements for program sustainability, performance measures and evaluation, capacity-building activities by AmeriCorps members, qualifications for tutors, and other requirements. The implementation of these changes through the rulemaking process includes ensuring the Corporation's information collection instruments accurately reflect these issues.

In an effort to be compliant while maintaining functions essential to the operations of each State Commission and AmeriCorps program, we are submitting the enclosed request to OMB for approval of information collection activities. This submission includes application instructions which are used by state commissions to apply for AmeriCorps States and Territories Competitive, Education Award Program, and Formula Grants. The application is completed electronically using eGrants, the Corporation's web-based grants management system.

Current Action: The Corporation seeks to renew and revise the current Application Instructions for State Commissions due to Rulemaking. When revised, the Application Instructions will revise/clarify the Application Instructions especially as they are affected by new regulations. In addition, these Application Instructions which previously were included in a larger collection, will now be separated into a new collection.

The application will otherwise be used in the same manner as the existing application for State Primes which was included in the AmeriCorps National, State, and Indian Tribes and U.S. Territories 2005 Application Instructions, and which it replaces. The Corporation also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on September 30, 2005.
