

applies only prospectively, not retroactively. Nevertheless, the Agency put the BEN model through two peer reviews in 1988 and 1991. As mentioned in the June 1999 **Federal Register** notice, copies of those peer reviews are available to the public. In addition, since that comment was made, the Agency has put the model through a third peer review. That review focused on the changes to the model that we were proposing as part of this **Federal Register** process.

Comment: One commenter felt that EPA should publish any final decisions on economic benefit issues arising from the current public comment process.

Response: All the final decisions are detailed in the main text of this notice. Of course, as stated previously, the illegal competitive advantage guidance document is not final and has instead been submitted to a peer review by the Agency's Science Advisory Board.
