

excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation. This event establishes a safety zone; therefore, paragraph (34)(g) of the Instruction applies.

A preliminary “Environmental Analysis Check List” is available in the docket where indicated under **ADDRESSES**. Comments on this section will be considered before we make the final decision on whether the rule should be categorically excluded from further environmental review.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR Part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701; 50 U.S.C. 191, 195; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

■ 2. A new temporary § 165.T09–108 is added to read as follows:

§ 165.T09–108 Safety Zone; NY.

(a) *Location*. The following area is a temporary safety zone: all waters of the Niagara River within an 800 foot radius of the fireworks barge moored/anchored in approximate position 43°09′27″ N, 076°20′25″ W (NAD 83).

(b) *Effective time and date*. This section is effective from 10 p.m. (local) until 10:30 p.m. (local) on September 17, 2005.

(c) *Regulations*. In accordance with the general regulations in § 165.23 of this part, entry into this safety zone is prohibited unless authorized by the Coast Guard Captain of the Port Buffalo, or his designated on-scene representative.

Dated: August 4, 2005.

S.J. Ferguson,

Captain, U.S. Coast Guard, Captain of the Port Buffalo.

Approval and Promulgation of Air Quality Implementation Plans; Minnesota; Revised Format of 40 CFR Part 52 for Materials Being Incorporated by Reference; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correcting amendment.

SUMMARY: This document corrects an error in the amendatory instruction in a final rule pertaining to the Revised Format of 40 CFR part 52 for Materials Being Incorporated by Reference for Minnesota.

DATES: This final rule is effective on August 30, 2005.

FOR FURTHER INFORMATION CONTACT: Christos Panos, Environmental Engineer, Criteria Pollutant Section, Air Programs Branch (AR–18J), U.S. Environmental Protection Agency, Region 5, Chicago, Illinois 60604, (312) 353–8328, or by e-mail at panos.christos@epa.gov.

SUPPLEMENTARY INFORMATION: EPA published a document on February 24, 2005 (70 FR 8930) redesignating § 52.1220 as § 52.1222, when § 52.1222 already existed. The intent of the rule was to remove the then existing § 52.1222 titled “EPA-approved Minnesota State regulations” and then redesignate § 52.1220 as § 52.1222. This document corrects the erroneous amendatory language.

Correction

In the final rule published in the **Federal Register** on February 24, 2005 (70 FR 8930), on page 8932 the amendatory instruction is corrected. Section 553 of the Administrative Procedure Act, 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. We have determined that there is good cause for making today’s rule final without prior proposal and opportunity for comment because we are merely correcting an incorrect citation in a previous action. Thus, notice and public procedure are unnecessary. We find that this constitutes good cause under 5 U.S.C. 553(b)(B).

■ Part 52 of chapter I, title 40, Code of Federal Regulations, is amended as follows:

PART 52—[AMENDED]

■ 1. The authority for citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart Y—Minnesota

§ 52.1222 [Removed]

■ 2. Section 52.1222 titled “EPA-approved Minnesota State regulations” is removed.

§ 52.1220 [Redesignated as § 52.1222]

■ 3. Section 52.1220 is redesignated as § 52.1222 and the section heading and paragraph (a) are revised to read as follows:

§ 52.1222 Original Identification of plan section.

(a) This section identifies the original “Air Implementation Plan for the State of Minnesota” and all revisions submitted by Minnesota that were federally approved prior to December 1, 2004.

Standards of Performance for New and Existing Stationary Sources: Electric Utility Steam Generating Units

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; corrections.

SUMMARY: This action corrects and clarifies certain text of the final rule entitled “Standards of Performance for New and Existing Stationary Sources: Electric Utility Steam Generating

Units.” The final rule was published in the **Federal Register** on May 18, 2005 (70 FR 28606).

This action corrects certain section designations set forth in the final rule at 70 FR 28652. In addition, this action corrects certain revisions set forth in the final rule at 70 FR 28678. These corrections do not affect the substance of the action, nor do they change the rights or obligations of any party. Rather, this action merely corrects certain section designations to eliminate duplication with other rules. Thus, it is proper to issue these final rule corrections without notice and comment. Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. We have determined that there is good cause for making this action final without prior proposal and opportunity for comment because the changes to the rule are minor technical corrections, are noncontroversial, and do not substantively change the agency actions taken in the final rule. Thus, notice and public procedure are unnecessary. We find that this constitutes good cause under 5 U.S.C. 553(b)(B).

EFFECTIVE DATE: May 18, 2005.

FOR FURTHER INFORMATION CONTACT: Mr. William Maxwell, Combustion Group, Emission Standards Division (C439-01), EPA, Research Triangle Park, North Carolina, 27711; telephone number (919) 541-5430; fax number (919) 541-5450; electronic mail address: maxwell.bill@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What Is the Background for the Corrections?

On May 18, 2005 (70 FR 28606), EPA issued a final rule in which EPA promulgated new source performance standards for new coal-fired electric utility steam generating units and emission guidelines for existing coal-fired electric utility steam generating units designed to limit mercury (Hg) emissions from such sources. EPA subsequently determined that certain sections of the final rule were not properly designated, *i.e.*, the numbering was not correct, and that certain rule text was not properly identified as introductory text. This action corrects those technical errors.

II. What Are the Corrections to Final Rule (70 FR 28652, 27678)?

This notice corrects the following errors. In inserting a section to 40 CFR part 60, subpart Da (*e.g.*, 40 CFR 60.45a), to incorporate emission limitations for Hg, subsequent sections were renumbered. In so doing, we inadvertently assigned section numbers to 40 CFR part 60, subpart Da, that were already in use in 40 CFR part 60, subpart Ea. To correct this error, it is necessary to renumber all of the sections in 40 CFR part 60, subpart Da, and to correct the associated internal references in the same manner. Further, in revising 40 CFR 75.6, we inadvertently indicated that we were revising entire paragraphs, rather than just the introductory text.

III. Statutory and Executive Order Reviews

Under Executive Order 12866, Regulatory Planning and Review (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and is, therefore, not subject to review by the Office of Management and Budget (OMB). This action is not a “major rule” as defined by 5 U.S.C. 804(2). The technical corrections do not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Because EPA has made a “good cause” finding that this action is not subject to notice and comment requirements under the APA or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), or to sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104B4). In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in sections 203 and 204 of the UMRA.

The corrections do not have substantial direct effects on the States, or on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, Federalism (64 FR 43255, August 10, 1999).

Today’s action also does not significantly or uniquely affect the communities of Tribal governments, as specified in Executive Order 13175, Consultation and Coordination with Indian Tribal Governments (65 FR 67249, November 9, 2000). The technical corrections also are not subject to Executive Order 13045, Protection of

Children from Environmental Health and Safety Risks (62 FR 19885, April 23, 1997) because this action is not economically significant.

The corrections are not subject to Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use (66 FR 28355, May 22, 2001) because this action is not a significant regulatory action under Executive Order 12866.

The corrections do not involve changes to the technical standards related to test methods or monitoring methods; thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272) do not apply.

The corrections also do not involve special consideration of environmental justice-related issues as required by Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations (59 FR 7629, February 16, 1994).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the U.S. EPA will submit a report containing today’s final action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the U.S. prior to publication of today’s action in the **Federal Register**. Today’s action is not a “major rule” as defined by 5 U.S.C. 804(2). The final rule will be effective on May 18, 2005.

EPA’s compliance with the above statutes and EO for the underlying rule is discussed in the May 18, 2005 **Federal Register** notice containing “Standards of Performance for New and Existing Stationary Sources: Electric Utility Steam Generating Units” (70 FR 28606).

National Emission Standards for Hazardous Air Pollutants: Miscellaneous Organic Chemical Manufacturing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Partial withdrawal of direct final rule.

SUMMARY: On July 1, 2005, the EPA issued direct final amendments to the national emission standards for hazardous air pollutants (NESHAP) for Miscellaneous Organic Chemical Manufacturing, along with a parallel proposal to be used as the basis for final action in the event EPA received any adverse comments on the direct final amendments. Because adverse comment was received, EPA is withdrawing the corresponding parts of the direct final rule. We stated in that direct final rule that if we received adverse comment by August 1, 2005, we would publish a timely withdrawal in the **Federal Register**. We will address all comments in a subsequent final rule based on the

parallel proposal published on July 1, 2005. As stated in the parallel proposal, we will not institute a second comment period on this action.

DATES: As of August 30, 2005, EPA withdraws the direct final rule amendments to 40 CFR 63.2485(c)(4) and Table 1 to subpart FFFF of part 63, published on July 1, 2005 (70 FR 38554). The remaining provisions published on July 1, 2005, will be effective on August 30, 2005.

ADDRESSES: EPA has established a docket for this action under Docket ID No. OAR–2003–0121. All documents in the docket are listed in the index at <http://www.epa.gov/edocket>. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in EDOCKET or in hard copy at: Air and Radiation Docket, EPA/DC, EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. SUPPLEMENTARY INFORMATION: On July 1, 2005, we published a direct final rule (70 FR 38554) and a parallel proposal (70 FR 38562) amending the NESHAP for Miscellaneous Organic Chemical Manufacturing (40 CFR part 63, subpart FFFF). We amended the NESHAP by: Clarifying the compliance requirements for flares and the alternative standard, extending the vapor balancing alternative to cover transfers from barges to storage tanks, amending the procedures for correcting measured concentrations at the outlet of combustion devices to correct for dilution by supplemental gas, and clarifying the signature requirements for the notification of compliance status report. The direct final rule amendments also specified requirements for effluent from control devices, clarified the definition of the term continuous process vent, and
