

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 26,781 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: (1) Industries discharging toxic pollutants to waters in the Great Lakes System as defined in 40 CFR 132.2 and (2) publicly-owned treatment works discharging toxic pollutants to waters of the Great Lakes System as defined in 40 CFR 132.2.

Estimated Number of Respondents: 2,710

Frequency of Response: Varies depending on discharger's effluent characteristics.

Estimated Total Annual Hour Burden: 28,797

Estimated Total Annual Cost: \$3,070,186, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 94,066 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to a transfer of burden hours to the Water Quality Standards ICR (OMB Control Number 2040-0049) and a decrease in the number of potentially affected entities.

Dated: August 23, 2005.
