

collection. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, *e.g.*, new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. ED invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on respondents, including through the use of information technology.

Type of Review: New.

Title: Alcohol, Other Drug, and Violence Prevention Survey of American College Campuses.

Abstract: This survey's purpose is to determine the state of alcohol and other drug abuse and violence prevention in higher education and assess current and emerging needs of institutions of higher education and their surrounding communities. A Notice of Proposed Information Collection Requests, for a 60-day comment period, was published in the **Federal Register** on August 12, 2005.

Additional Information: ED is requesting emergency processing for the Alcohol, Other Drug, and Violence Prevention Survey of American College Campuses. There is a risk for public harm if this collection is not approved by October 13, 2005. There would be a loss of substantial time (in effect, the entire fall semester) during which the Center can compile and analyze valuable information related to the needs of the field in preventing drug abuse and violent behavior among college students. If the survey cannot be administered with OMB's approval by the requested time, the next window of opportunity for administering the survey is spring 2006, which negatively affects planning prevention services and

providing critical assessment data to the field. The public benefits from the Center planning services for potential implementation based on an analysis of data in November and December 2005. A delay in the survey administration means that such planning would not occur until May and June 2006, when two semesters have lapsed.

Frequency: On occasion.

Affected Public: Not-for-profit institutions (primary).

Reporting and Recordkeeping Hour Burden:

Responses: 1,050.

Burden Hours: 871.

Energy Information Administration

Agency Information Collection Activities: Proposed Collection; Cancellation of Comment Request

AGENCY: Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Agency Information Collection Activities: Proposed Collection; Cancellation of Comment Request.

SUMMARY: On June 30, 2005, the EIA issued a **Federal Register** notice (70 FR 37798) soliciting comments on EIA's Voluntary Reporting of Greenhouse Gases Program (Form EIA-1605). Upon further consideration, EIA has decided to cancel the request for comments on the proposed revised form and instructions for the Program.

DATES: Cancellation of the comment request is effective as of August 31, 2005.

ADDRESSES: Questions or comments regarding this cancellation should be directed to Stephen E. Calopedis. Contact by e-mail (stephen.calopedis@eia.doe.gov) or fax (202-586-3045) is recommended. Questions or comments submitted by mail should be sent to Stephen E. Calopedis, U.S. Department of Energy, Energy Information Administration, EI-81, 1000 Independence Avenue, SW., Washington, DC 20585. Mr. Calopedis may also be contacted at 202-586-1156.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Mr. Calopedis at the address above.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions

I. Background

The Federal Energy Administration Act of 1974 (Pub. L. 93-275, 15 U.S.C. 761 *et seq.*) and the DOE Organization Act (Pub. L. 95-91, 42 U.S.C. 7101 *et seq.*) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles,

analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer-term domestic demands.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35), provides the general public and other Federal agencies with opportunities to comment on collections of information conducted by or in conjunction with the EIA. Any comments received help the EIA to prepare data requests that maximize the utility of the information collected, and to assess the impact of collection requirements on the public.

The Voluntary Reporting of Greenhouse Gases Program information collection is conducted pursuant to section 1605(b) of the Energy Policy Act of 1992 (Pub. L. 102-486, 42 U.S.C. 13385). The Program is currently operated under General Guidelines issued in October 1994 (59 FR 52769) by the DOE's Office of Policy and International Affairs. The Program's existing EIA-1605 and EIA-1605EZ forms were designed to collect voluntarily reported data on greenhouse gas emissions, reductions of these emissions, and increased carbon fixation, as well as information on commitments to reduce greenhouse gas emissions and sequester carbon in future years.

On June 30, 2005, the EIA issued a **Federal Register** notice (70 FR 37798) soliciting comments on a proposed revised Form EIA-1605 and instructions that were developed to conform to revised Interim Final General Guidelines and Draft Technical Guidelines proposed by the DOE's Office of Policy and International Affairs on March 24, 2005 (70 FR 15169). The comment period on the revised Interim Final General Guidelines and Draft Technical Guidelines closed on June 22, 2005, while the comment period on EIA's proposed revised Form EIA-1605 and instructions closed on August 29, 2005.

II. Current Actions

Upon further consideration, EIA has decided to cancel the request for comments on the proposed revised Form EIA-1605 and instructions. EIA will instead wait for the process of developing the general and technical guidelines to progress before soliciting comments on revised draft versions of the Program's form and instructions. EIA will, however, where appropriate,

take into consideration comments received in response to its June 29, 2005 **Federal Register** notice in developing revised draft forms and instructions. After EIA drafts revised forms and instructions, EIA will issue a new **Federal Register** notice requesting public comments.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35).

Issued in Washington, DC, August 25, 2005.

Jay H. Casselberry,

Agency Clearance Officer, Energy Information Administration.
