*The Standards Council of Canada (SCC)
voted to end its Laboratory Accreditation
Program for Substance Abuse (LAPSA)
effective May 12, 1998. Laboratories certified
through that program were accredited to
conduct forensic urine drug testing as
required by U.S. Department of
Transportation (DOT) regulations. As of that
date, the certification of those accredited
Canadian laboratories will continue under
DOT authority. The responsibility for
conducting quarterly performance testing
plus periodic on-site inspections of those
LAPSA-accredited laboratories was
transferred to the U.S. HHS, with the HHS'
NLCP contractor continuing to have an active
role in the performance testing and
laboratory inspection processes. Other
Canadian laboratories wishing to be
considered for the NLCP may apply directly
to the NLCP contractor just as U.S.
laboratories do.

Upon finding a Canadian laboratory to be
qualified, HHS will recommend that DOT
certify the laboratory (**Federal Register**, July

16, 1996) as meeting the minimum standards
of the Mandatory Guidelines published in the
Federal Register on April 13, 2004 (69 FR
19644). After receiving DOT certification, the
laboratory will be included in the monthly
list of HHS-certified laboratories and
participate in the NLCP certification
maintenance program.

Anna Marsh,

Executive Officer, SAMHSA.
