SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. Collection of Information: FERC Form 11 "Natural Gas Monthly Quarterly Statement of Monthly Data".
2. Sponsor: Federal Energy Regulatory Commission.
3. Control No. 1902-0032.

The Commission is now requesting that OMB approve and extend the expiration date for an additional three years with no changes to the existing collection. The information filed with the Commission is mandatory.

4. Necessity of the Collection of Information: Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the statutory provisions of sections 10(a) and 16 of the Natural Gas Act (NGA) 15 U.S.C. 717-717w and the Natural Gas Policy Act of 1978 (NGPA) (15 U.S.C. 3301-3432). The NGA and NGPA authorize the Commission to prescribe rules and regulations requiring natural gas pipeline companies whose gas was transported or stored for a fee, which exceeded 50 million dekatherms in each of the three previous calendar years to submit FERC Form 11. Although the submission of the form is quarterly, the information is reported on a monthly basis. This permits the Commission to follow developing trends on a pipeline's system. Gas revenues and quantities of gas by rate schedule, transition cost from upstream pipelines, and reservation charges are reported. This information is used by the Commission to assess the reasonableness of the various revenues and cost of service items claimed in rate filings. It also provides the Commission with a view of the status pipeline activities, allows revenue comparisons between pipelines, and provides the financial status of the regulated pipelines.

The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR section 260.3 and section 385.2011.

5. Respondent Description: The respondent universe currently comprises 63 companies (on average) subject to the Commission's jurisdiction.

6. Estimated Burden: 756 total hours, 63 respondents (average), 4 responses per respondent, and 3 hours per response (average).

7. Estimated Cost Burden to respondents: 756 hours/2080 hours per

year × \$108,558 per year = \$39,457. The cost per respondent is equal to \$626.

Statutory Authority: Sections 10(a) and 16 of the Natural Gas Act (NGA) 15 U.S.C. 717-717w and the Natural Gas Policy Act of 1978 (NGPA) (15 U.S.C. 3301-3432).
