Synopsis

On August 2, 2005, pursuant to the Commission's directive in the *Two-line Captioned Telephone Order*, FCC 05-141, released July 19, 2005, the Interstate TRS Fund Administrator, NECA, submitted the proposed allocation factor for inbound two-line captioned telephone calls for compensation from the Interstate TRS Fund for the period July 1, 2005 through June 30, 2006. See letter to the Federal Communications Commission Secretary, Marlene H. Dortch from the NECA Director, John Ricker, proposing the allocation factor for two-line captioned telephone calls.

In the *Two-line Captioned Telephone Order*, the Commission adopted NECA's proposed methodology for determining the number of inbound two-line captioned telephone call minutes that will be compensated from the Interstate TRS Fund. The Commission noted that for such calls there is currently no way for a provider to determine if a particular call is interstate or intrastate. The Commission instructed NECA to determine and apply, on an annual basis, an allocation factor for inbound two-line captioned telephone calls that is based on the relationship between interstate and international traditional TRS calls and all intrastate, interstate, and international traditional TRS calls.

NECA calculated the factor by using projections of traditional TRS minutes for 2005 and 2006 as submitted by relay service providers with their annual data submissions in January 2005. Interstate and international minutes for both years totaled 24,459,907; local, intrastate, interstate and international minutes totaled 213,957,866. Dividing interstate and international minutes by total minutes results in a proposed interstate factor of 11% for inbound two-line captioned telephone minutes. The remaining 89% of minutes would continue to be allocated to the intrastate jurisdiction.

Synopsis of Notice of Inquiry

1. Section 628(g) of the Communications Act of 1934, as amended, directs the Commission to report to Congress annually on the status of competition in the market for the delivery of video programming. This Notice of Inquiry (NOI) solicits data and information on the status of competition in the market for the delivery of video programming for the Commission's twelfth annual report (*2005 Report*). We request information, comments, and analyses that will allow us to evaluate the status of competition in the video marketplace, changes in the market since the *2004 Report*, prospects for new entrants to that market, factors that have facilitated or impeded competition, and the effect these factors are having on consumers' access to video programming. Where possible and relevant, we request data as of June 30, 2005.

2. We encourage thorough and substantive submissions from industry participants and state and local regulators with the best knowledge of the questions and issues raised. We will augment reported information with submissions in other Commission proceedings. In the past, we have had to rely on data from publicly available sources when information has not been provided directly by industry participants. The Commission intends to seek out publicly available information relevant to this inquiry.

Competition in the Market for the Delivery of Video Programming

In the NOI, we ask commenters to provide data on video programming distributors, including cable systems, direct broadcast satellite (DBS) services, large home satellite or C-Band dish (C-Band) providers, broadband service providers (BSPs), private cable or satellite master antenna television (PCO) systems, open video systems (OVS), multichannel multipoint distribution or wireless cable systems (wireless cable), local exchange carrier (LEC) systems,
