

Management is now used as an approach for setting duck-hunting regulations in the United States and provides a framework for making objective decisions despite continued uncertainty about waterfowl population dynamics and regulatory impacts. The Alaska migratory bird subsistence regulations have been in existence since 2003. These developments and others make it desirable to supplement the preceding EIS documents and reexamine some of the issues associated with the issuance of annual regulations.

Issue Resolution and Environmental Review

We intend to develop a supplemental EIS on the "Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds," beginning the process with this announcement. Federal and State agencies, private conservation organizations, and all other interested parties and individuals are invited to participate in the process by presenting their views on the subject. We seek suggestions and comments regarding the scope and substance of this supplemental EIS, particular issues to be addressed and why, and options or alternatives to be considered. In particular, in regard to the scope and substance of this supplemental EIS, we seek comments on the following:

- (1) Harvest management alternatives for migratory game birds to be considered,
- (2) Limiting the scope of the assessment to sport hunting (*i.e.*, exclusion of the Alaska migratory bird subsistence process), and
- (3) Inclusion of basic regulations (methods and means).

Comments should be forwarded to the above address by the deadline indicated. We will conduct the development of this supplemental EIS in accordance with the requirements of the National Environmental Policy Act of 1969 as amended (42 U.S.C. 4371 et seq.), other appropriate federal regulations, and Service procedures for compliance with those regulations. We are furnishing this Notice in accordance with 40 CFR 1501.7, to obtain suggestions and information from other agencies, tribes, and the public on the scope of issues to be addressed in the supplemental EIS.

Public Scoping Meetings

A schedule of public scoping meeting dates, locations, and times is not available at this time. We will publish a notice of any such meetings in the **Federal Register**.
