Affected entities: Entities potentially affected by this action are those which have a threshold planning quantity of an extremely hazardous substance (EHS) listed in 40 CFR part 355, Appendix A and those which have a release of any of the EHS above a reportable quantity. Entities more likely to be affected by this action may include chemical manufacturers, non-chemical manufacturers, retailers, petroleum refineries, utilities, etc.

Title: Emergency Planning and Release Notification Requirements (EPCRA sections 302, 303, and 304)

Abstract: The authority for these requirements is sections 302, 303, and 304 of the Emergency Planning and Community Right-to-Know Act (EPCRA), 1986 (42 U.S.C. 11002, 11003, and 11004). EPCRA established broad emergency planning and facility reporting requirements. Section 302 requires facilities to notify their state emergency response commission (SERC) that the facility is subject to emergency planning. This activity has been completed; this ICR covers only new facilities that are subject to this requirement. Section 303 requires the local emergency planning committees (LEPCs) to prepare emergency plans for facilities that are subject to section 302. This activity has been also completed; this ICR only covers any updates needed for these emergency response plans. Section 304 requires facilities to report to SERCs and LEPCs releases in excess of the reportable quantities listed for each extremely hazardous substance (EHS). This ICR also covers the notification and the written follow-up required under this section.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Burden Statement: The average reporting burden for emergency planning under 40 CFR 355.30 is 16.15 hours for new facilities and 1.50 hours for existing facilities. For new facilities, this burden includes the time required to read and understand the regulations, to determine reporting status, notify the SERC that the facility is subject to emergency planning, designate a facility representative and otherwise participate in initial planning activities and provide information to the LEPC for planning purposes (11 hours). For a limited number of existing facilities, there may be a burden to inform the LEPC of any changes at the facility that may affect emergency planning (1.50 hours). The average reporting burden for facilities reporting releases under 40 CFR 355.40 is estimated to average approximately 5 hours per release, including the time for determining if the release is a reportable quantity, notifying the LEPC and SERC, or the 911 operator, and developing and submitting a written follow-up notice. There are no recordkeeping requirements for facilities under EPCRA Sections 302–304. The total burden to facilities over three years is 264,560 hours at a cost of \$8.8 million.

The average burden for emergency planning activities is 21 hours per plan for LEPCs, and 16 hours per plan for SERCs. Each SERC and LEPC is also estimated to incur an annual recordkeeping burden of 10 hours. The total burden to LEPC and SERC over three years is 372,820 hours at a cost of \$9.5 million.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: September 2, 2005.

Director, Office of Emergency Management.
