AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule, notice of data availability, extension of comment period.

SUMMARY: On June 14, 2005, EPA issued a notice of data availability concerning a proposed rule to add a diisononyl phthalate (DINP) category to the list of toxic chemicals subject to the reporting requirements of section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA) and section 6607 of the Pollution Prevention Act (PPA). The notice of data availability made available for public comment a revised hazard assessment for DINP. The purpose of this action is to inform interested parties that, in response to a request for an extension, EPA is extending the comment period by 30 days until October 12, 2005. The comment period for the notice of data availability was previously scheduled to close on September 12, 2005.

B. How Should I Submit CBI to the Agency?

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. Commenters wishing to submit proprietary information for consideration must clearly distinguish such information from other comments and clearly label it as CBI. Send submissions containing such proprietary information directly to the following address only, and not to the public docket, to ensure that proprietary information is not inadvertently placed in the docket: Attention: OEI Document Control Officer, Mail Code: 2822T, U.S. EPA, 1200 Pennsylvania Ave. NW., Washington, DC 20460. If you submit the copy that does not contain CBI on disk or CD-ROM, mark the outside of the disk or CD-ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

II. Background Information

A. What Does This Notice Do and What Action Does This Notice Affect?

This notice extends the comment period for EPA's June 14, 2005 notice of data availability concerning the proposed rule to add a DINP category to the EPCRA section 313 list of toxic chemicals (70 FR 34437).

B. Why and for How Long Is EPA Extending the Comment Period?

EPA received a request from the public for a 30-day extension of the comment period for the June 14, 2005 DINP notice of data availability. The request was for additional time to review relevant information and prepare comments on the revised DINP hazard assessment that was made available for public comment in the notice of data availability. EPA considered the request and determined that extending the comment period is an appropriate action. Therefore, EPA is extending the comment period on the June 14, 2005 notice of data availability by 30 days until October 12, 2005. All comments should be submitted following the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION** section of this document. All comments must be received by October 12, 2005.

[Docket No. NHTSA 2004-19239]

RIN 2127-AG41

Federal Motor Vehicle Safety Standards; Rearview Mirrors

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: In response to a petition for rulemaking, this document proposes to require straight trucks with a gross vehicle weight rating (GVWR) of between 4,536 kilograms (10,000 pounds) and 11,793 kilograms (26,000 pounds) to be equipped with a rear object detection system. The purpose of the proposed requirement is to alert drivers to persons and objects directly behind the vehicle, thereby reducing backing-related deaths and injuries. This notice proposes two compliance options. Vehicle manufacturers could satisfy the proposed requirement either by installing a mirror system or rear video system that would make the area to the rear of the vehicle visible to the driver. The notice also asks a series of questions to help the agency determine whether the proposed requirements should be extended to vehicles in other weight classes and whether existing straight trucks engaged in interstate commerce should be retrofitted to meet the proposed requirements, as part of a future rulemaking.
