

which should be included in the development of the risk-based sampling techniques in the proposed rule text will clarify members' and member organizations' obligations in monitoring the use of these exceptions, as well as provide for effective supervision and review of associated persons in such exempt locations.

Amendment No. 3 provides a more comprehensive list of factors to be considered in the development of the risk-based sampling techniques, makes technical and clarifying changes to the rule text, and provides a discussion on the timing of the adoption of the Exchange's new definition of branch office. The Commission believes that the proposed changes in Amendment No. 3 provide for a clearer understanding of the implementation of the proposed branch office definition. Specifically, the Commission agrees with the Exchange that branch office registration should be primarily determined by the functions performed in an office. For instance, the Exchange's proposed deletion of the qualifier "other than the main office" from the definition of branch office recognizes that the definition of branch office and its corresponding registration should be triggered based on the activities performed at the location, even if the activities are performed at the main office. Similarly, the Exchange also proposes that, despite the seven exceptions to the definition of branch office, any location responsible for supervising the activities of persons associated with a member or member organization at one or more non-branch locations of such member or member organization should nevertheless register as a branch office. The Commission notes that this rule change is similar to one proposed by the NASD in its branch office filing. Finally, the Commission notes that the additional technical and clarifying changes made to NYSE Rule 342.10 raise no new issues of regulatory concern.

Accordingly, the Commission believes that accelerated approval of Amendment Nos. 2 and 3 is appropriate.

VI. Conclusion

For the foregoing reasons, the Commission finds that the proposed rule change, as amended, is consistent with the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, with Section 6(b)(5) of the Act.⁷¹

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁷² that the proposed rule change (SR-NYSE-2002-34) and Amendment No. 1 thereto are approved, and that Amendment Nos. 2 and 3 thereto are approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁷³

Jonathan G. Katz,
Secretary.
