Brake Rotors From the People's Republic of China: Preliminary Results of Antidumping Duty Changed Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") is currently conducting a changed circumstances review of the antidumping duty order on brake rotors from the People's Republic of China ("PRC"). We have preliminarily determined that Shandong Huanri Group Co., Ltd. ("Huanri Group") is the successor-in-interest to Shandong Huanri Group General Company ("Huanri Group General") for purposes of determining antidumping liability.

Interested parties are invited to comment on these preliminary results. The Department will issue the final results of this antidumping duty changed circumstances review not later than November 7, 2005, as the Department plans to issue the final results of this changed circumstance review at the same time as the final results of the concurrent administrative review.

EFFECTIVE DATE: September 20, 2005.

FOR FURTHER INFORMATION CONTACT: Catherine Bertrand or Carrie Blozy, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-3207 or (202) 482-5403, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 28, 2004, Huanri Group requested that the Department

determine that it is the successor-in-interest to Huanri Group General for purposes of determining antidumping liability. On December 13, 2004, the Department initiated a changed circumstances review of Huanri Group's claim that it is the successor-of-interest to Huanri Group General. See *Brake Rotors from the People's Republic of China: Notice of Initiation of Changed Circumstances Review*, 69 FR 75508 (December 17, 2004).

On February 2, 2005, the Department issued a supplemental questionnaire to Huanri Group. On February 23, 2005, Huanri Group submitted a supplemental questionnaire response. On March 26, 2005, the Department verified the information submitted by the Huanri Group to support its successorship claim at Huanri's Group's office in Laizhou, China. See Verification Report, dated June 17, 2005 ("*Verification Report*").

Scope of the Order

The products covered by the order are brake rotors made of gray cast iron, whether finished, semifinished, or unfinished, ranging in diameter from 8 to 16 inches (20.32 to 40.64 centimeters) and in weight from 8 to 45 pounds (3.63 to 20.41 kilograms). The size parameters (weight and dimension) of the brake rotors limit their use to the following types of motor vehicles: automobiles, all-terrain vehicles, vans, recreational vehicles under "one ton and a half," and light trucks designated as "one ton and a half."

Finished brake rotors are those that are ready for sale and installation without any further operations. Semi-finished rotors are those rotors which have undergone some drilling and on which the surface is not entirely smooth. Unfinished rotors are those which have undergone some grinding or turning.

These brake rotors are for motor vehicles and do not contain in the casting a logo of an original equipment manufacturer ("OEM") which produces vehicles sold in the United States (e.g., General Motors, Ford, Chrysler, Honda, Toyota, and Volvo). Brake rotors covered in this review are not certified by OEM producers of vehicles sold in the United States. The scope also includes composite brake rotors that are made of gray cast iron which contain a steel plate but otherwise meet the above criteria. Excluded from the scope of the review are brake rotors made of gray cast iron, whether finished, semifinished, or unfinished, with a diameter less than 8 inches or greater than 16 inches (less than 20.32 centimeters or greater than 40.64
