Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and §385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other and the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the

Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. Titles: Background Checks for Contractor Employees (Renewal).

Abstract: EPA uses contractors to perform services throughout the nation with regard to environmental emergencies involving the release, or threatened release, of oil, radioactive materials or hazardous chemicals that may potentially affect communities and the surrounding environment. Releases may be accidental, deliberate, or may be caused by natural disasters. Emergency responders are available 24 hours-a-day to an incident, and respond with necessary personnel and equipment to eliminate dangers to the public and environment. Contractors responding to any of these types of incidents are responsible for conducting background checks and applying Government-established suitability criteria in determining whether employees are acceptable to perform on given sites or on specific projects prior to contract employee performance. The information to be collected under the ICR for Background Checks for Contractor Employees covers citizenship or valid visa, criminal convictions, weapons offenses, felony convictions, parties prohibited from receiving federal contracts. The Contractor shall maintain records of all background checks.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1 hour per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize

technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are contractors involved with Emergency Response that have significant security concerns, as determined by the Contracting Officer on a case-by-case basis, to provide qualified personnel that meet the background check requirements developed by EPA.

Estimated Number of Respondents: 1,000.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 1,000.

Estimated Total Annual Cost: \$179,000, which includes \$0 annual capital/startup and O&M costs, and \$179,000 annual labor costs.

Changes in the Estimates: There is a no change in the number of hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: September 13, 2005.

Director, Collection Strategies Division.
