**DEPARTMENT OF JUSTICE****Notice of Modification of Consent Decree Under the Clean Water Act**

Under 28 CFR 50.7, the Environment and Natural Resources Division of the Department of Justice proposes to modify a Consent Decree in *United States and State of Louisiana v. Sewerage District No. 1 of Iberia Parish*, Civil Action No. 04-1352. The Consent Decree was entered by the United States District Court for the Western District of Louisiana on December 20, 2004.

In this action the United States, and its co-plaintiff the State of Louisiana, sought injunctive relief and a civil penalty to address sanitary sewer overflows and other violations of the Clean Water Act and the National Pollutant Discharge Elimination System ("NPDES") permit issued to Sewerage District No. 1 of Iberia Parish ("Sewerage District") for the Tete Bayou publicly owned treatment works. Under the Consent Decree, the Sewerage District agreed, *inter alia*, to construct an equalization basin at the Tete Bayou Plant to relieve wet weather plant hydraulic overload conditions; and to comprehensively study and rehabilitate the Sewerage District's collection system to eliminate sanitary sewer overflows from the system. Additionally, the Sewerage District paid the United States and LDEQ a civil penalty of \$51,400. The Sewerage District has asked for a modification of Paragraph 17.A of the Consent Decree to allow an extension of the end date for the completion of collection system rehabilitation projects from December 30, 2008, to December 30, 2009. The United States and the State of Louisiana believe that the proposed modification is appropriate here.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments
