

extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Record keeping burden. OMB invites public comment.

Currently, the National Mediation Board is soliciting comments concerning the proposed extension of the Application for Investigation of Representation Dispute and is interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the agency; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the agency enhance the quality, utility, and clarity of the information to be collected; and (5) how might the agency minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: September 26, 2005.

June D. W. King,

Director, Office of Administration, National Mediation Board.

Application for Investigation of Representation Dispute

Type of Review: Extension.

Title: Application for Investigation of Representation Dispute.

OMB Number: 3140-0001.

Frequency: On occasion.

Affected Public: Carrier and Union Officials, and employees of railroads and airlines.

Reporting and Recordkeeping Hour Burden:

Responses: 68 annually.

Burden Hours: 17.00.

Abstract: When a dispute arises among a carrier's employees as to who will be their bargaining representative, the National Mediation Board (NMB) is required by Section 2, Ninth, to investigate the dispute, to determine who is the authorized representative, if any, and to certify such representative. The NMB's duties do not arise until its services have been invoked by a party to the dispute. The Railway Labor Act is silent as to how the invocation of a representation dispute is to be accomplished and the NMB has not promulgated regulations requiring any specific vehicle. Nonetheless, 29 CFR 1203.2, provides that applications for the services of the NMB under Section 2, Ninth, to investigate representation disputes may be made on printed forms secured from the NMB's Office of Legal Affairs or on the Internet at <http://www.nmb.gov/representation/>

apply.html. The application requires the following information: the name of the carrier involved; the name or description of the craft or class involved; the name of the petitioning organization or individual; the name of the organization currently representing the employees, if any; the names of any other organizations or representatives involved in the dispute; and the estimated number of employees in the craft or class involved. This basic information is essential in providing the NMB with the details of the dispute so that it can determine what resources will be required to conduct an investigation.

The extension of this form is necessary considering the information is used by the Board in determining such matters as how many staff will be required to conduct an investigation and what other resources must be mobilized to complete our statutory responsibilities. Without this information, the Board would have to delay the commencement of the investigation, which is contrary to the intent of the Railway Labor Act.

Requests for copies of the proposed information collection request may be accessed from <http://www.nmb.gov> or should be addressed to Denise Murdock, NMB, 1301 K Street NW., Suite 250 E, Washington, DC 20005 or addressed to the e-mail address murdock@nmb.gov or faxed to 202-692-5081. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to June D. W. King at 202-692-5010 or via Internet address king@nmb.gov. Individuals who use a telecommunications device for the deaf (TDD/TDY) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 7550-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-184]

National Institute of Standards and Technology, National Bureau of Standards Reactor; Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Process

The National Institute of Standards and Technology (NIST), formerly known as the National Bureau of Standards, has submitted an application for renewal of Facility Operating License No. TR-5 for

an additional 20 years of operation at the National Bureau of Standards Reactor (NBSR). The NBSR is located in Montgomery County in Maryland, about 20 miles northwest of Washington, DC. The operating license for the NBSR expired on May 16, 2004. The application for license renewal, which included an environmental report (ER), was received on April 9, 2004. A notice of receipt and availability of the application was published in the **Federal Register** on May 12, 2004 (69 FR 26414). A notice of acceptance for docketing of the application and a notice of opportunity for hearing regarding renewal of the facility operating licenses was published in the **Federal Register** on September 21, 2004 (69 FR 56462). The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) will be preparing an environmental impact statement (EIS) in support of the review of the license renewal application and to provide the public an opportunity to participate in the environmental scoping process, as defined in 10 CFR 51.29. In addition, as outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act," the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act in meeting the requirements of the National Environmental Policy Act of 1969 (NEPA).

In accordance with 10 CFR 50.20 and 10 CFR 51.45, NIST submitted the ER as part of the application. The ER was prepared pursuant to 10 CFR part 51 and is available for public inspection at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Electronic Reading Room link. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff at 1-800-397-4209, or (301) 415-4737, or by e-mail to pdr@nrc.gov.

This notice advises the public that the NRC intends to gather the information necessary to prepare an EIS documenting the staff's environmental review of the application for renewal of the NBSR operating license for an additional 20 years. Alternatives to the proposed action (license renewal), including the no-action alternative will be considered. The NRC is required by

10 CFR 51.20(b)(2) to prepare an EIS in connection with the renewal of the operating license for a testing facility. This notice is being published in accordance with NEPA and the NRC's regulations found in 10 CFR part 51.

The NRC will first conduct a scoping process for the EIS and, as soon as practicable thereafter, will prepare a draft EIS for public comment. Participation in the scoping process by members of the public and local, State, tribal, and Federal government agencies is encouraged. The scoping process for the EIS will be used to accomplish the following:

- a. Define the proposed action which is to be the subject of the EIS;
- b. Determine the scope of the EIS and identify the significant issues to be analyzed in depth;
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant;
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of the scope of the EIS being considered;
- e. Identify other environmental review and consultation requirements related to the proposed action;
- f. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decisionmaking schedule;
- g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC and any cooperating agencies; and
- h. Describe how the EIS will be prepared, and include any contractor assistance to be used.

The NRC invites the following entities to participate in scoping:

- a. The applicant, the National Institute of Standards and Technology;
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved, or that is authorized to develop and enforce relevant environmental standards;
- c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;
- d. Any affected Indian tribe;
- e. Any person who requests or has requested an opportunity to participate in the scoping process; and
- f. Any person who has petitioned or intends to petition for leave to intervene.

Members of the public may send written comments on the environmental scope of the NBSR license renewal

review to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Comments may also be delivered to the NRC, Room T-6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. during Federal workdays. To be considered in the scoping process, written comments should be postmarked no later than 60 days after the date of this Notice. Electronic comments may be sent by e-mail to the NRC at NBSReactorEIS@nrc.gov and should be sent no later than 60 days from the date of this Notice, to be considered in the scoping process. No public scoping meeting is planned. Comments will be available electronically and accessible through ADAMS at <http://www.nrc.gov/reading-rm/adams.html>. Participation in the scoping process for the EIS does not entitle participants to become parties to the proceeding to which the EIS relates. Notice of opportunity for a hearing regarding the renewal application was the subject of the aforementioned **Federal Register** notice (69 FR 56462).

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determination and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process. The summary will also be available for inspection in ADAMS at <http://www.nrc.gov/reading-rm/adams.html>. The staff will then prepare and issue for comment the draft EIS, which will be the subject of a separate notice. Copies will be available for public inspection at the above-mentioned addresses, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC will prepare a final EIS, which will also be available for public inspection.

Information about the proposed action, the EIS, and the scoping process may be obtained from NRC Environmental Project Manager, Mr. James H. Wilson, at (301) 415-1108, or via e-mail at jhw1@nrc.gov.

Dated at Rockville, Maryland, this 23rd day of September 2005.

For the Nuclear Regulatory Commission.

Brian E. Thomas,

Section Chief, Research and Test Reactors Section, New, Research and Test Reactors Program, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Procedures for Meetings

Background

This notice describes procedures to be followed with respect to meetings conducted by the Nuclear Regulatory Commission's (NRC's) Advisory Committee on Reactor Safeguards (ACRS) pursuant to the Federal Advisory Committee Act (FACA). These procedures are set forth so that they may be incorporated by reference in future notices for individual meetings.

The ACRS is a statutory group established by Congress to review and report on nuclear safety matters and applications for the licensing of nuclear facilities. The Committee's reports become a part of the public record.

The ACRS meetings are conducted in accordance with FACA; they are normally open to the public and provide opportunities for oral or written statements from members of the public to be considered as part of the Committee's information gathering process. ACRS reviews do not normally encompass matters pertaining to environmental impacts other than those related to radiological safety.

The ACRS meetings are not adjudicatory hearings such as those conducted by the NRC's Atomic Safety and Licensing Board Panel as part of the Commission's licensing process.

General Rules Regarding ACRS Full Committee Meetings

An agenda will be published in the **Federal Register** for each full Committee meeting. There may be a need to make changes to the agenda to facilitate the conduct of the meeting. The Chairman of the Committee is empowered to conduct the meeting in a manner that, in his/her judgment, will facilitate the orderly conduct of business, including making provisions to continue the discussion of matters not completed on the scheduled day on another meeting day. Persons planning to attend the meeting may contact the Designated Federal Official (DFO) specified in the **Federal Register** Notice
