Foreign-Trade Zones Board

(Docket 46-2005)

Foreign-Trade Zone 50 — Long Beach, California, Application For Subzone, Eastman Kodak Company (X-ray film, Color Paper, Digital Media, Inkjet Paper, Entertainment Imaging, and Health Imaging, Whittier and Santa Fe Springs, California)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Port of Long Beach (California), grantee of FTZ 50, requesting special-purpose subzone status for the facilities of the Eastman Kodak Company (Kodak), located in Whittier and Santa Fe Springs, California. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on September 26, 2005.

The facilities for which subzone status is proposed are on two sites (more than 29 acres total; 299,545 sq. ft. of enclosed space) at 12100 Rivera Road in Whittier (22.9 acres; 1 building with 216,000 sq. ft.) and 10715 Shoemaker Road in Santa Fe Springs (6.3 acres; 1 building with 83,545 sq. ft.). The facilities are used for the storage and distribution, as well as certain processing operations (e.g., "kitting"), of imported products related to X-ray film, color paper, digital media, inkjet paper, entertainment imaging, and health imaging. Kodak indicates that authority to perform its processing operations under FTZ procedures may result in changes in tariff classifications and duty rates for imported products. The application states that "some of the potential items that might be included in kitting operations in different combinations" are cameras (HTSUS 8525.40.4000), docking station (8471.80.1000), docking station with charger (8504.40.9550), printer dock (8471.60.5500), camera bags (4202.92.9026), batteries (8506 - 8507), battery chargers (8504.40.9550), mini tripods (9006.91.0000), memory cards (8473.30.1080), USB cable (8544.41.4000), and power cable - printer dock (8544.51.9000). Duty rates on these items range from duty-free to 17.6% *ad valorem*.
