

the form of a subbasin plan for each subbasin or as possible elements for a subbasin plan.

On May 28, 2004, the Council received proposed subbasin plans for 59 subbasins of the Columbia River, formally recommended for amendment into the Council's Fish and Wildlife Program. The Council then engaged in the lengthy public review process required by the Power Act for recommended program amendments, including notice and public review and comment on the recommendations and notice, comment and public hearings in all four states of the Columbia basin on proposed draft amendments based on the recommendations.

Following the required public review, the Council formally adopted as amendments into the Fish and Wildlife Program subbasin plans for 57 Columbia basin subbasins, based on the recommendations submitted. The Council made its decisions to adopt the subbasin plan amendments at its public meetings in December 2004, February 2005, May 2005 and June 2005. At its September 2005 public meeting, the Council concluded its subbasin plan program amendment process by adopting, as part of its program, a document describing the subbasin plan amendment process, making written findings explaining the Council's disposition of the amendment recommendations, and explaining how the Council responded to the public comment on the recommendations and draft program amendments. This document also serves as a Statement of Basis and Purpose for the Council's decision.

The subbasin plans amended into the program and the program document with the findings on recommendations and responses to comments may be found on the Council's Web site, at <http://www.nwcouncil.org/fw/subbasinplanning/Default.htm>.

II. Background

On September 14, 2005, J.P. Morgan Chase & Co. (Chase) filed a petition to reopen the record in this docket so that it can provide supplemental information for the Commission's reconsideration of the Bank One Opinion and Recommended Decision Approving Negotiated Service Agreement issued December 17, 2004.¹ Chase argues that it has been denied due process, and unless it has a timely opportunity to supplement the record, a profound injustice will result.

If the Commission grants the Chase Petition, issues potentially may be considered related to negotiated service agreements based solely on pure volume-based discounts. These novel issues may not have been fully considered or litigated under the original Bank One Request.² The Bank One Request was filed as a request to consider a negotiated service agreement functionally equivalent to the Capital One negotiated service agreement based on a declining block rate volume discount element and an address correction cost savings element.

On September 27, 2005, the Commission issued Notice of Inquiry No. 1 Regarding Status of Settlement Agreement (NOI) seeking comments as to the status of the settlement agreement signed by a majority of the participants in the Bank One case, and seeking further background information
