

including the requirement that Defendants remove or relocate mango trees and banana trees from the buffer zone area, and replace them with plaintain trees which would not be sprayed.

The United States and Defendants have reached a proposed agreement to resolve the United States' Motion to Enforce the Consent Decree and its request for stipulated penalties, which Settlement Agreement requires Defendants, *inter alia*, to remove or relocate the mango trees they were required to remove or relocate under the Decree by April 1, 2006, which schedule will allow Defendants to transplant the mango trees elsewhere at the Farm, and to replace them with bananas or plaintains. The Settlement Agreement authorizes the Farm to plant, in two perimeter areas, an extra row of neem trees as a barrier instead of planting bananas or plaintains. The Settlement Agreement allows Defendants to apply low-toxicity pesticides in limited circumstances and under application restrictions in buffer zone areas to address an outbreak of Sigatoka Negra. The Settlement Agreement also requires the Farm to pay a stipulated penalty of \$50,000 over a one year period, plus interest.

The Department of Justice will receive, for a period of fifteen (15) days from the date of this publication, written comments relating to the proposed Settlement Agreement. Comments should be addressed to the Assistant Attorney General, Environmental and Natural Resources Division, Post Office Box 7611, United States Department of Justice, Washington, DC 20044-7611, and should refer to *United States v.
